

TRANSPORTATION - EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

The Sacramento County Department of Transportation (SACDOT) is responsible for improving, operating and maintaining the transportation infrastructure of the Unincorporated Area of the County to ensure the safety and mobility of all users including motorists, pedestrians, bicyclists, and transit. SACDOT develops and constructs capital improvements to the county roadway, bikeway and pedestrian system, and carries out ongoing programs to operate, maintain and rehabilitate this system. The County's Transportation Capital Improvement Plan (CIP) projects, including their scope, schedule and financing structure, are outlined in the seven-year Transportation Improvement and Program Guide (TIPG) which is updated annually and presented to the Board of Supervisors for adoption. The TIPG also defines the programs and funding for maintaining the county transportation system. The draft 2008 TIPG is currently scheduled to be considered by the Board of Supervisors for adoption in August 2008. This is also presented to the Board of Supervisors for adoption each year.

The Five-Year CIP estimated cost of \$559.5 million is based on the draft 2008 TIPG. This CIP includes only the capital improvement projects that are currently being implemented by SACDOT. Maintenance and operations activities carried out by SACDOT, including major contracts for pavement rehabilitation and sidewalk/curb/gutter replacement, are not included in the CIP. Some of the projects included in the CIP will result in impacts to the Department's Operation and Maintenance Programs and budget. The cost of this impact is unknown at this time.

The CIP includes improvements to all components of the county's transportation system including roadways, pedestrian facilities, bikeways, and traffic signal systems. The projects include the construction of new facilities as well as the modification and expansion of existing facilities.

Major transportation projects currently under construction or scheduled for construction include the following:

- 47th Avenue Transportation Improvements. **Estimated Total Cost: \$1,505,000**
- Americans with Disabilities Act (ADA) Transition Plan Implementation. **Estimated Total Cost: \$1,827,000**
- Asphalt Concrete Overlay Project, Phase II. **Estimated Total Cost: \$4,555,000**
- Bradshaw Road - Calvine Road to Florin Road. **Estimated Total Cost: \$28,628,000**
- Countywide Sidewalk Continuity Project, Phase II. **Estimated Total Cost: \$3,273,000**
- East McClellan Overlay Project. **Estimated Total Cost: \$3,276,000**
- Franklin Boulevard Streetscape. **Estimated Total Cost: \$5,046,000**
- Garfield Avenue and Cypress Traffic Signal Project. **Estimated Total Cost: \$780,000**
- Hazel Avenue – U.S. Highway 50 to Curragh Downs Drive, Phase I. **Estimated Total Cost: \$35,113,000**
- Intersection Improvements – Disabled Access Phase III. **Estimated Total Cost: \$1,037,000**

CAPITAL IMPROVEMENT PLAN

TRANSPORTATION - EXECUTIVE SUMMARY

- MacReady Avenue Reconstruction. **Estimated Total Cost: \$2,497,000**
- McClellan Economic Development Areas (EDA) Grant Project, Phase II. **Estimated Total Cost: \$6,110,000**
- North Kiefer Boulevard - Closure at Kiefer Boulevard. **Estimated Total Cost: \$1,629,000**
- Pacific Elementary Safe Routes to School Project. **Estimated Total Cost: \$1,028,000**
- Pavement Maintenance Project 08/09. **Estimated Total Cost: \$12,654,000**
- Pedestrian Master Plan Implementation Project - Various Locations. **Estimated Total Cost: \$6,000,000**
- South Watt Avenue - State Route 16 (Jackson Road) to Kiefer Boulevard. **Estimated Total Cost: \$6,373,000**
- Waterman Road Landscaping Project - Calvine Road to Vintage Park Drive. **Estimated Total Cost: \$2,176,000**
- Watt Avenue at Light Rail Transit (LRT) - Grade Separation. **Estimated Total Cost: \$30,453,000**
- Watt Avenue at Light Rail Transit (LRT) - Grade Separation Landscaping Project. **Estimated Total Cost: \$725,000**

Projects currently in development include the following:

- Construction of new on and off-street bikeways to implement the county's Bikeway Master Plan.
- Installation of disabled access improvements.
- Widening and construction of pedestrian, bicycle and aesthetic improvements on several major county roadways including Hazel Avenue, Fair Oaks Boulevard, Elkhorn Boulevard, Greenback Lane, Madison Avenue, and Bradshaw Road.
- Development and implementation of a Pedestrian Master Plan and Americans with Disabilities (ADA) Transition Plan for the Unincorporated Area of Sacramento County.
- Construction of improvements to enhance safety, capacity and bicycle, pedestrian and transit access on Watt Avenue between Highway 50 and Folsom Boulevard.
- Construction of streetscape and other transportation enhancements in the Folsom Boulevard, Florin Road, Franklin Boulevard and Watt Avenue corridors.

Transportation projects are financed by various funding sources including the Measure A Sales Tax, the countywide roadway development fee, special roadway financing districts, and state and federal funds. These sources are dedicated for transportation uses and fully fund the projects described in this CIP.

47th Avenue Transportation Improvements

Sacramento, CA

Project #1

Department: Transportation

Estimated Project Cost: \$1,505,000

Expected Completion Date: 2009

Funding Sources: SAFETEA-LU (CMAQ),
New Faze Development

Project Description:

This project received federal grant funds for public transportation improvements (sidewalks, landscaping and streetscape enhancements, parking improvements, accessibility improvements, and other bicycle, pedestrian and transit access enhancements) for 47th Avenue corridor.

This is not a Sacramento County administered project. The design and construction of this project is being done by development and partially funded by federal funds.

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Americans with Disabilities Act (ADA) Transition Plan Implementation

Sacramento County (Unincorporated)

Project #2

Department: Transportation

Estimated Project Cost: \$1,827,000

Expected Completion Date: 2009

Funding Sources: Measure A Sales Tax

Project Description:

Sacramento County's Americans with Disabilities Act (ADA) Transition Plan provides for the installation of new curb ramps as well as the modification of existing curb ramps, and other street and sidewalk access improvements to ensure that accessibility is provided to all users of the sidewalk, walkways, and multipurpose lanes (roadway shoulders) within the unincorporated county public rights-of-way.

ADA requires that all public agencies develop a transition plan for the installation of curb ramps or other sloped areas at all locations where walkways cross curbs. The plan is required to give a schedule for curb ramp installation as well as other improvements necessary to achieve accessibility for persons with disabilities. The main purpose of this transition plan is to describe the curb ramp and other pedestrian facility needs in the unincorporated County and to outline the recommended procedures for implementing and scheduling remedial work to provide a complying system of curb ramps, pedestrian signals, and sidewalks.

Arden Way Improvement Project – Eastern Avenue to Fair Oaks Boulevard, Phase I

Borders Arden Park, Sacramento, CA 95864

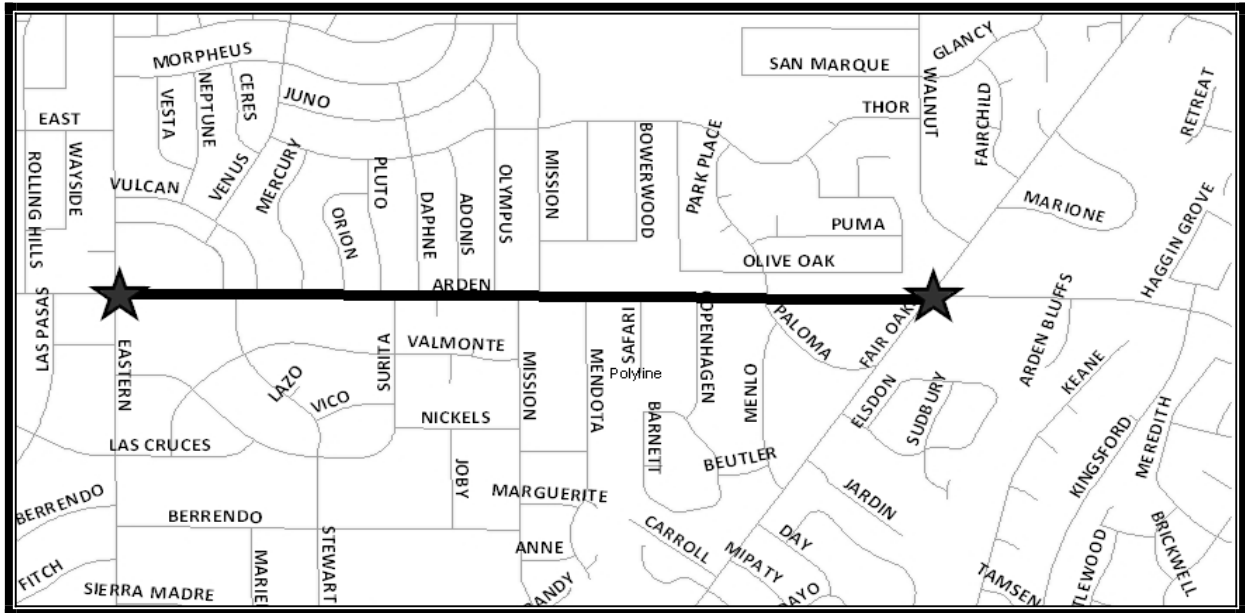

Project #3

Department: Transportation

Estimated Project Cost: \$1,800,000

Expected Completion Date: 2010

Funding Sources: New Measure A Sales Tax, Federal (CMAQ)

Project Description:

This project proposes improvements for bicycle and pedestrian mobility along Arden Way from Eastern Avenue to Fair Oaks Boulevard. This project will include: new sidewalks, Class II bike lane improvements, planter strips, shade trees, and a traffic signal with bicycle and pedestrian detectors and intersection improvements at the offset intersection at Mission Avenue.

This project has been approved for federal (CMAQ) funding under SACOG's Regional Bicycle and Pedestrian program.

Asphalt Concrete Overlay Project, Phase II

Sacramento County

Project #4

Department: Transportation

Estimated Project Cost: \$4,555,000

Expected Completion Date: 2009

Funding Sources: Road Fund, Federal
(SAFETEA-LU)

Project Description:

This project consists of placing a two inch (2") thick rubberized asphalt concrete pavement overlay, repairing failed pavement (base repair), cold planing the pavement to accommodate the overlay, curb and gutter key cuts, adjusting manholes to grade, removing and replacing concrete curb, gutter, and sidewalk, installing sidewalk accessibility curb ramps, replacing inductive loop detectors, installing hand holes, modifying pedestrian pushbuttons, and re-stripping.

Project Locations:

Bell Street – El Camino Avenue to Marconi Avenue
Fair Oaks Boulevard - Winding Way to Sunset Avenue
Florin Perkins Road – Florin Road to Way and Avenue
French Road - Gerber Road to Florin Road
La Riviera Drive – Salmon Falls Drive to Folsom Boulevard
Main Avenue – Madison Avenue to Greenback Lane
Q Street – 34th Street to Watt Avenue
Rosemont Drive – Huntsman Drive to Mayhew Drive

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Auburn Boulevard Enhancements

Sacramento, CA 95821

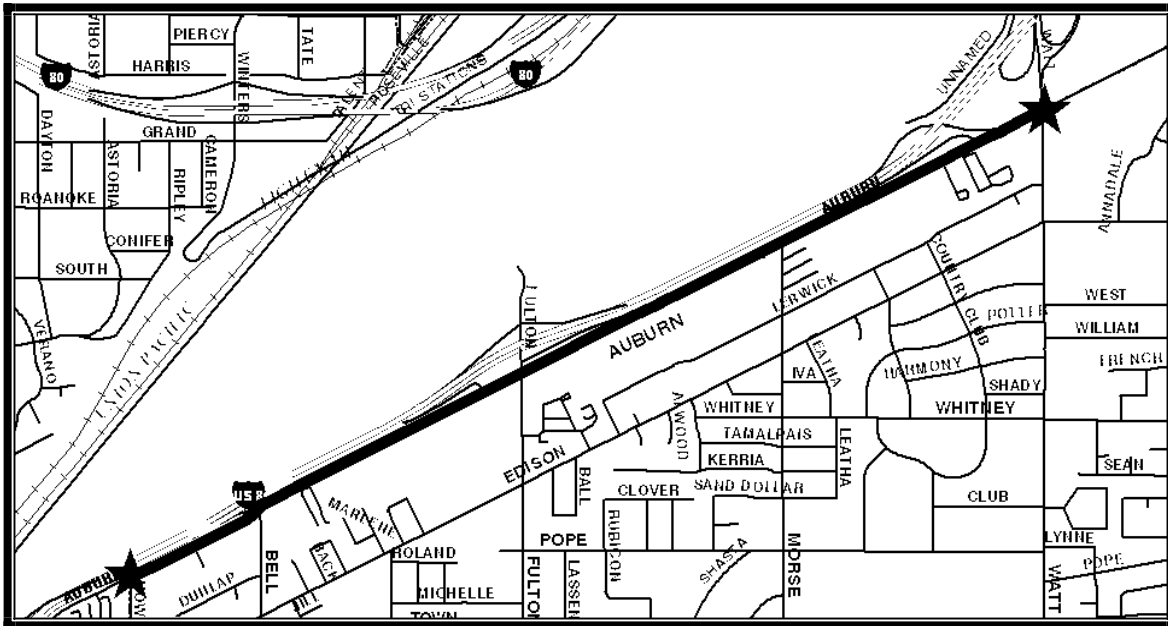

Project #6

Department: Transportation

Estimated Project Cost: \$1,463,000

Expected Completion Date: 2011

Funding Sources: Other (SHRA)

Project Description:

The Sacramento Housing and Redevelopment Agency (SHRA) and the County have initiated a study to develop a special planning area ordinance and streetscape master plan for the Auburn Boulevard corridor between Howe Avenue and Watt Avenue. The proposed master plan will include various transportation enhancements within the corridor including landscaping, streetscape, lighting enhancements, bicycle/pedestrian improvements, and other enhancements to support all modes of travel. The streetscape master plan is scheduled to be completed in 2008, and will set forth concepts for enhancement projects to be implemented by SHRA and the County. This project provides for the design and construction of a first phase project based on the streetscape master plan.

Countywide Sidewalk Continuity Project, Phase II

Sacramento County

Project #10

Department: Transportation

Estimated Project Cost: \$3,273,000

Expected Completion Date: 2009

Funding Sources: Measure A Sales Tax,
Other (SHRA), Other (SJUSD,DWR)

Project Description:

This project will construct sidewalks to fill in gaps at up to nine locations in District 3 in accordance with the Sidewalk Construction Project Priority List. These include locations where pedestrian volumes and adjacent vehicle volumes are relatively high, and where it is unlikely that property development or redevelopment will occur in the near future. The locations are:

Project Locations:

Annadale Lane - Auburn Boulevard to Edison Avenue
Edison Avenue - east of Watt Avenue
Edison Avenue - west of Watt Avenue
El Camino Avenue - Burgundy Way to Chicken Ranch Slough
Fulton Avenue at Carson Way
Northrop Avenue - Howe Avenue to Bell Avenue
Watt Avenue - Greenview Lane to Robertson Avenue
Watt Avenue - Kentfield Drive to Chenu Avenue
Watt Avenue – Williams Way and West Way

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Countywide Street Beautification Project

Sacramento County

Project #12

Department: Transportation

Estimated Project Cost: \$2,750,000*

Expected Completion Date: Ongoing

Funding Sources: New Measure A Sales Tax

Project Description:

This project will construct landscaping and streetscaping improvements in various street corridors throughout Sacramento County in accordance with the countywide street beautification priority list. These projects propose to fully landscape medians and frontage road planters with trees, shrubs and groundcovers, and install hardscape improvements such as textured/colored interlocking pavers and/or concrete. The construction of all landscaping improvements will include installation of automatic irrigation systems where needed. The funding source for this project is Measure A Sales Tax.

*The total estimated project schedule exceeds the five year plan, therefore the project budget is greater than the five-year plan shown below.

East McClellan Overlay Project

McClellan, CA 95652

Project #18

Department: Transportation

Estimated Project Cost: \$3,276,000

Expected Completion Date: 2009

Funding Sources: Other (McClellan Park)

Project Description:

This project proposes to modernize the roadway infrastructure of the East McClellan District to current commercial and business park development standards. To include Americans with Disabilities Act ramp improvements and resurface existing pavement of roads and re-stripe.

Project locations:

- Arnold Avenue – Dudley Boulevard to Peacekeeper Way
- Arnold Avenue – Peacekeeper Way to James Way
- Dudley Boulevard South - Arnold Avenue to Peacekeeper Way
- Dudley Boulevard Central - Peacekeeper Way to James Way
- Dudley Boulevard North - James Way to Freedom Park
- James Way - Watt Avenue to Price Avenue
- Palm Street - Watt Avenue to Luce Avenue
- Peacekeeper Way - Watt Avenue to Arnold Avenue
- Peacekeeper Way - Arnold Avenue to Dudley Boulevard

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Elk Grove-Florin Road Bridge Replacement

Sacramento, CA 95829

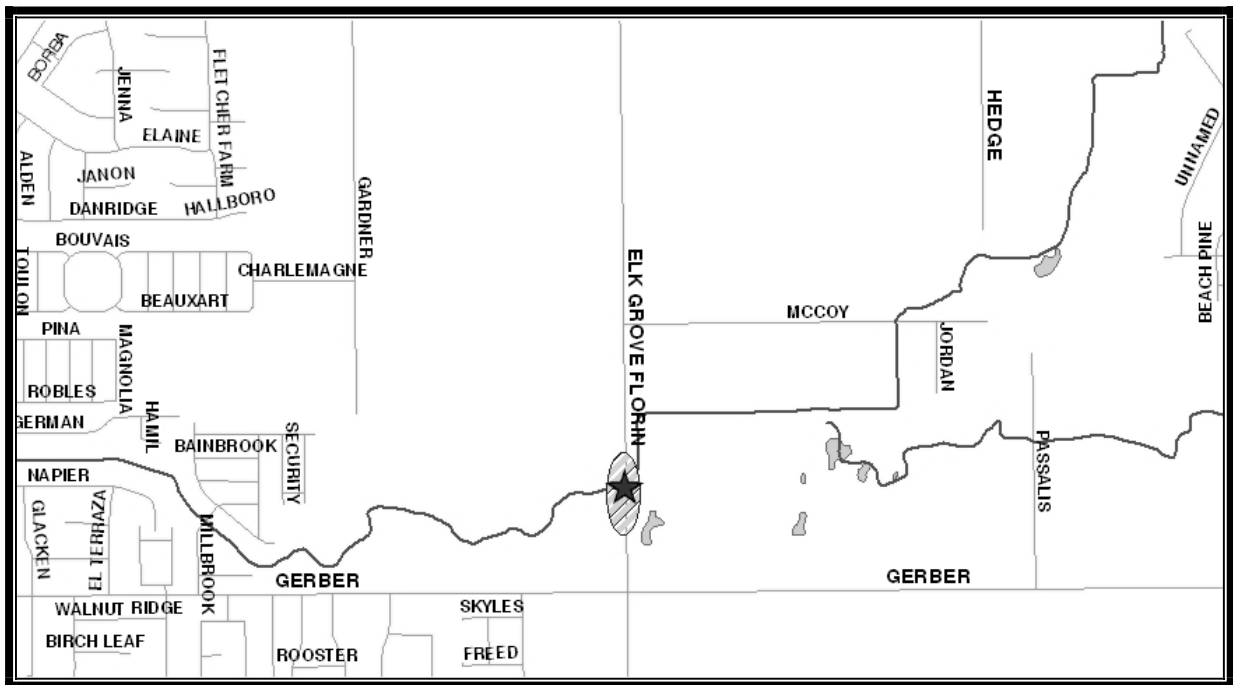

Project #19

Department: Transportation

Estimated Project Cost: \$2,486,000

Expected Completion Date: 2010

Funding Sources: Financing District (VIN),
Federal (HBP)

Project Description:

This project proposes to replace the Elk Grove-Florin Road Bridge at Elder Creek with a new bridge structure to accommodate the ultimate six lane configuration. Initially, the bridge will be striped for four lanes to accommodate the four lane widening project.

The bridge widening/replacement plans prepared by the Consultant will be incorporated into the Elk Grove-Florin Road improvement project plans. The project is tentatively scheduled for construction in 2009.

Fair Oaks Boulevard - Marconi Avenue to Engle Road

Carmichael, CA 95608

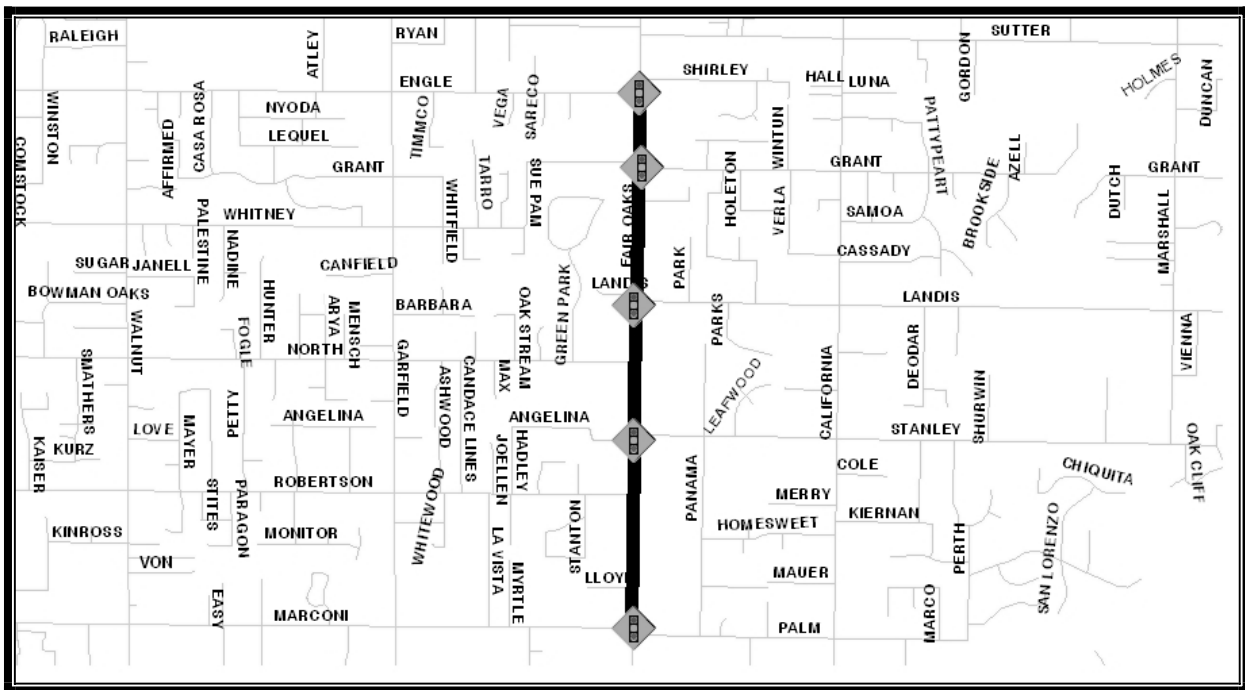

Project #24

Department: Transportation

Estimated Project Cost: \$12,230,000

Expected Completion Date: 2011

Funding Sources: Developer Fees, Measure A Sales Tax, Other (None Identified)

Project Description:

This project proposes to improve Fair Oaks Boulevard from four to six lanes including raised landscaped medians between Marconi Avenue and Engle Road in Carmichael. Proposed improvements include widening Fair Oaks Boulevard, installation of landscaping, improvements for Americans with Disabilities Act (ADA), transit access improvements, bicycle and pedestrian facilities, and signal modifications at Marconi Avenue, Stanley Avenue, Grant Avenue, and Engle Road.

This project is Number 4 on the Department's 2008 Major Highway Improvements Project Priority List. Volume/Capacity ratio is 1.26 and 24-hour traffic volume is 37,745 vehicles.

This project is on hold pending completion of the Fair Oaks Boulevard Commercial Study, which will affect the scope of this project including the roadway lane configuration. The Revenue and Expenditure Plan on the next page assumes that the project will construct traffic capacity improvements including widening to six lanes. Non-capacity improvements will not be eligible for Developer Fee funding.

Freeport Regional Water Authority Median Landscaping Improvements

Sacramento, CA 95823

Project #27

Department: Transportation

Estimated Project Cost: \$3,331,000

Expected Completion Date: 2009

Funding Sources: Department of Water
Resources, Freeport Water Authority

Project Description:

The project proposes to add raised landscaped medians along Power Inn Road between Lenhart Road and Skywoods Way - Haystack Drive, along Elsie Avenue between Power Inn Road and Wilbur Way, and along Gerber Road between Power Inn Road and Elk Grove-Florin Road. The project also includes a new traffic signal at Gerber Road/Valley Wood Drive. The improvements are part of the Freeport Regional Water Authority (FRWA) water transmission pipeline project that will carry water diverted from the Sacramento River at the new FRWA intake near Freeport Boulevard to the Sacramento County Water Agency (SCWA) Zone 40 Surface Water Treatment Plant (SWTP) and to the Folsom South Canal (FSC).

This is not a Sacramento County administered project. The funding and construction of this project is being done by the Freeport Regional Water Authority (FRWA).

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Sacramento, CA 95829

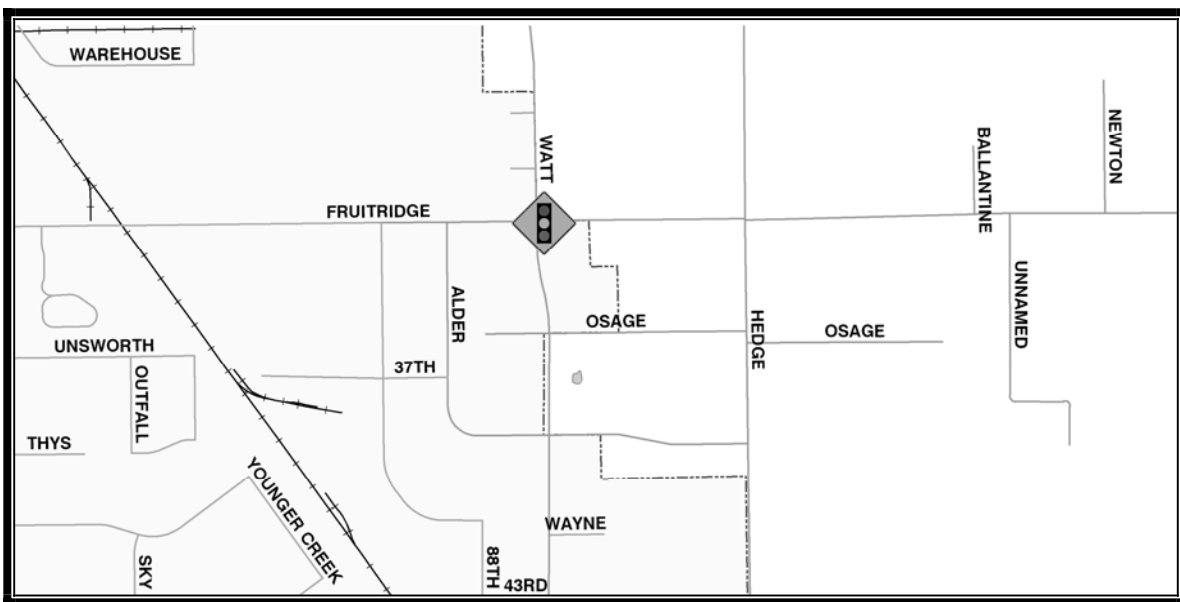

Project #28

Department: Transportation

Estimated Project Cost: \$1,520,000

Expected Completion Date: 2009

Funding Sources: Other (City of Sacramento),
Developer Fees

Project Description:

This project will install a traffic signal at the intersection of Fruitridge Road and South Watt Avenue. The design will consist of minor road widening with re-striping to accommodate turn lanes and multipurpose lanes.

The project is being implemented through a cooperative agreement between County and the City of Sacramento. The City has prepared plans, specifications and estimates, and has secured all necessary environmental and right-of-way clearances for the project. The City of Sacramento will also advertise, award and administer the construction contract.

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Gerber Road - Elk Grove-Florin Road to Gerber Creek Crossing #3

Sacramento, CA 95829

Project #30

Department: Transportation

Estimated Project Cost: \$11,643,000

Expected Completion Date: 2009

Funding Sources: Financing District (NVS),
Other (FRWA)

Project Description:

This project will widen Gerber Road from two lanes to three lanes between Elk Grove – Florin Road and Gerber Creek Crossing #3 in the Vineyard area. The project proposes to reconstruct two traffic lanes, add a new west bound lane, a new raised landscaped median, and new paved shoulders to accommodate bicycle and pedestrian facilities and a new traffic signal at Gerber Road/Diamond Ranch Drive. The project will also include a box bridge/culvert improvement at Gerber Creek Crossing #4. This project is part of the North Vineyard Station Specific Public Facilities Financing Plan.

The funding and construction of this project is being done by development and the Freeport Regional Water (FRWA) and will be reimbursed by the North Vineyard Station Financing Plan Fee Account after completion of the work.

Greenback Lane - Fair Oaks Boulevard to Hazel Avenue

Orangevale, CA 95652

Project #31

Department: Transportation

Estimated Project Cost: \$35,344,000*

Expected Completion Date: 2014

Funding Sources: Developer Fees, Measure A Sales Tax, Other (None Identified)

Project Description:

This project proposes to widen Greenback Lane from four to six lanes between Fair Oaks Boulevard and Hazel Avenue in the Citrus Heights and Orangevale areas. A preliminary scoping study is being completed which will further define the potential improvements to be included in the project. A commercial corridor planning effort for Greenback Lane is also expected to be initiated within the next year, which will further define alternative improvements for this segment of Greenback Lane.

This project is Number 7 on the Department's 2008 Major Highway Improvement Project Priority List. Volume/Capacity ratio is 0.97 and 24 hour traffic volume is 35,014 vehicles.

*The total estimated project schedule exceeds the five-year plan, therefore the project budget is greater than the five-year plan shown on the following page.

Hazel Avenue – Curragh Downs Drive to Madison Avenue, Phase II

Fair Oaks, CA 95628

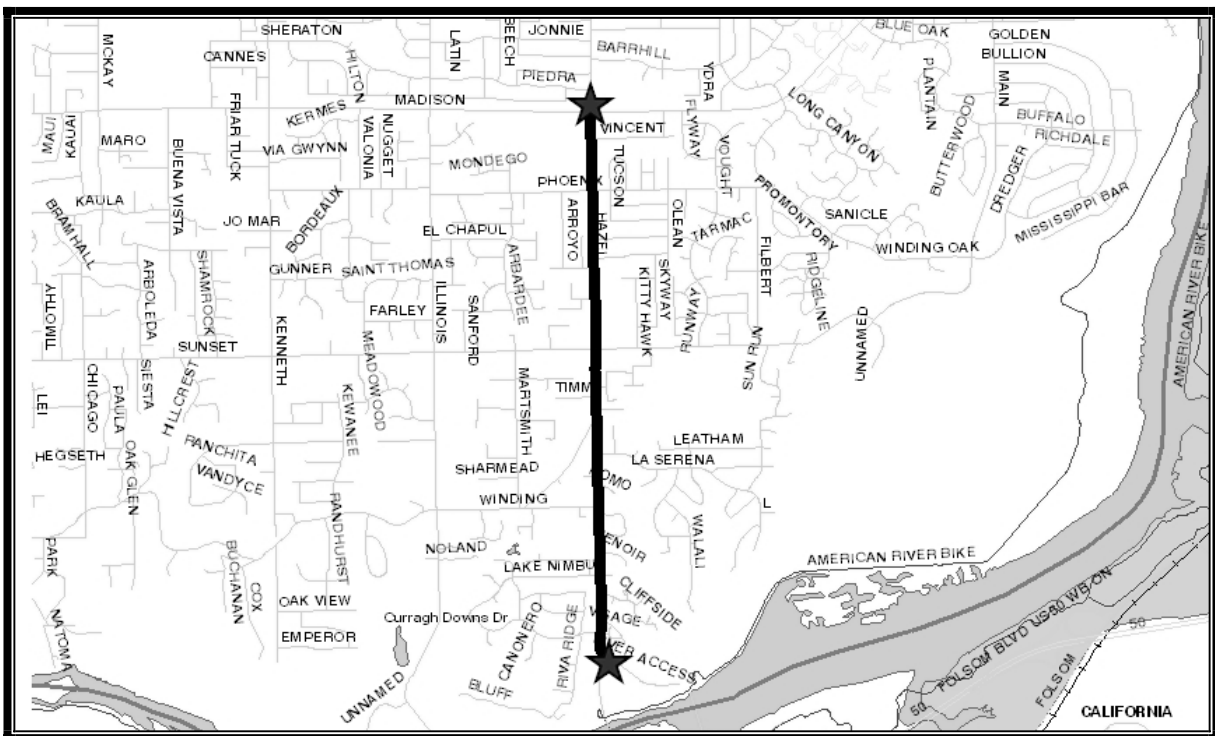

Project #32

Department: Transportation

Estimated Project Cost: \$31,478,000*

Expected Completion Date: 2013

Funding Sources: Developer Fees, New Measure Tax, Other Federal Funds, STIP

Project Description:

This second phase project will widen Hazel Avenue from four to six lanes from Curragh Downs Drive to Madison Avenue. This phase will also accomplish the appraisals and acquisitions of properties adjacent to the proposed improvements along with a concerted relocation effort for disposed property owners. Traffic signal modifications are proposed at Curragh Downs Drive, Winding Way, La Serena Drive, the fire station at Roediger Lane and a new signal at Phoenix Avenue. This project will improve existing and projected traffic congestion; enhance pedestrian and bicycle mobility in the corridor, address safety concerns; and generally improve the aesthetics of the corridor.

*The total estimated project schedule exceeds the five year plan, therefore the project budget is greater than the five-year plan shown on the following page.

Hazel Avenue Intelligent Transportation System (ITS) Project

Sacramento County

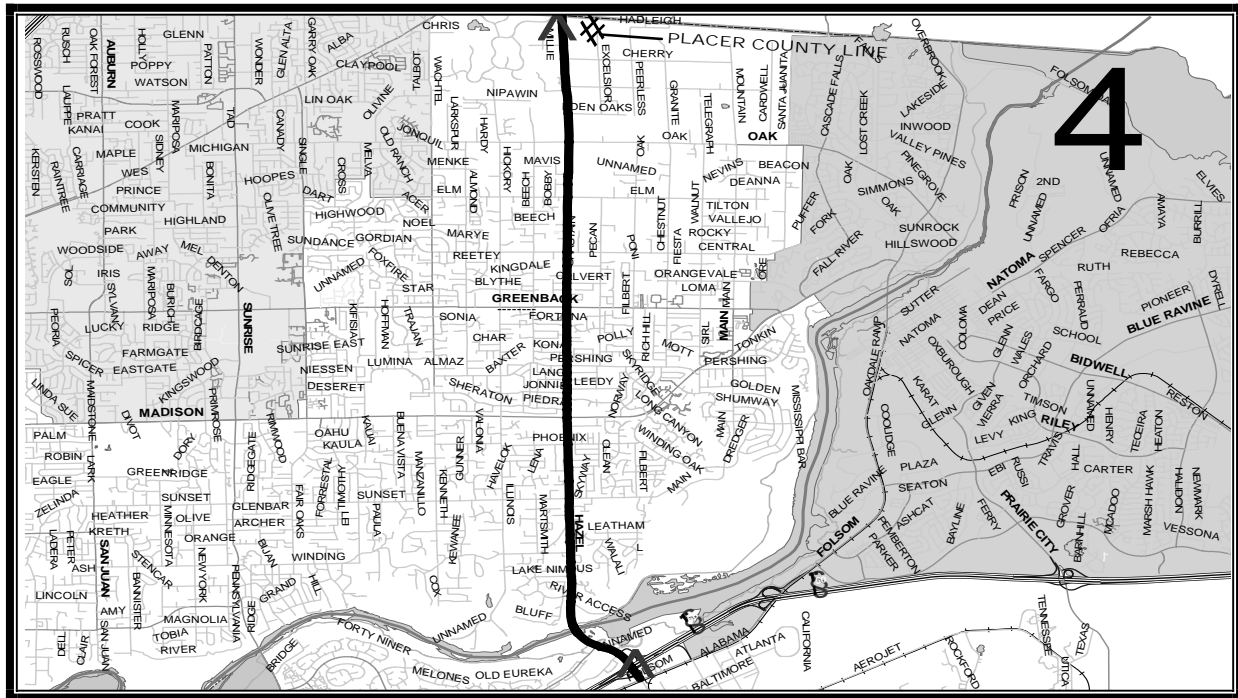

Project #34

Department: Transportation

Estimated Project Cost: \$805,000

Expected Completion Date: 2012

Funding Sources: Measure A Sales Tax,
TEA-21 (ITS)

Project Description:

This project will provide an expansion of the county's existing Intelligent Transportation System (ITS) program while adding a key component to the region's ITS development. It will install fiber optic and wireless communications, traffic surveillance cameras, changeable message signs, traffic data collection stations and an advanced traffic signal system along the entire corridor. Monitoring and control of traffic will be available through the existing Traffic Operations Center using real-time data to effectively manage incidents and congestion, with the data being readily available to multiple jurisdictional partners for purposes of coordinating transportation management throughout the region. Sacramento and Placer County have already cooperated on a corridor project that provides connectivity between the existing signal systems such that upgrading the signal system would then allow for the opportunity to provide seamless progression across jurisdictional boundaries. Installation of the advanced signal system will also allow further implementation of Transit Signal Priority, which has already been incorporated on several major corridors, and increase the coverage of Emergency Vehicle Pre-emption infrastructure desired by the fire protection agencies. Portions of this project will be implemented with the Hazel Avenue Phase I and II projects.

Intersection Improvements - Disabled Access, Phase III

Sacramento County

Project #36

Department: Transportation

Estimated Project Cost: \$1,037,000

Expected Completion Date: 2008

Funding Sources: Measure A Sales Tax

Project Description:

This project provides for the development and implementation of audible signals and other Americans with Disabilities Act (ADA) compliant upgrades at various locations throughout the County of Sacramento. The audible signals will be installed in accordance with the latest County Standards and current ADA requirements. The locations are based on citizens' requests and recommended by the County's Physical Access Subcommittee (PASC) of the Disability Advisory Committee. The locations are:

Project Locations:

- Arden Way at Fulton Avenue
- Cottage Way at Fulton Avenue
- Marconi Avenue at Fulton Avenue

Locations may be added or deleted based on the PASC's subsequent recommendations.

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Project #38

Department: Transportation

Estimated Project Cost: \$23,067,000

Expected Completion Date: 2011

Funding Sources: Measure A Sales Tax,
Financing District (Metro AP)

Project Description:

This project is a State Highway project to construct the first phase of a five-lane partial clover Type L-9 interchange for Metro Parkway at Interstate 5 (I-5). The first phase of this project will construct a three-lane overcrossing facility with a median, bike lanes and a sidewalk on the west side. Metro Air Parkway will connect on the north of the interchange and terminate south of I-5 with a cul-de-sac. South Bayou Road will be realigned to provide the right-of-way for partial completion of two-quadrant partial cloverleaf interchange. South Bayou Road connection to Metro Air Parkway is being deferred to a later phase. The interchange project also includes a one-lane northbound I-5 exit ramp and diagonal entrance ramp, one-lane southbound I-5 exit ramp, a two-lane southbound I-5 loop entrance ramp with auxiliary lane, street lighting, striping, signs, relocation of an existing drainage ditch on the south side of the freeway, construction of drainage improvements within the interchange, and relocation of utilities.

Madison Avenue Median Landscaping Project

Sacramento, CA 95841

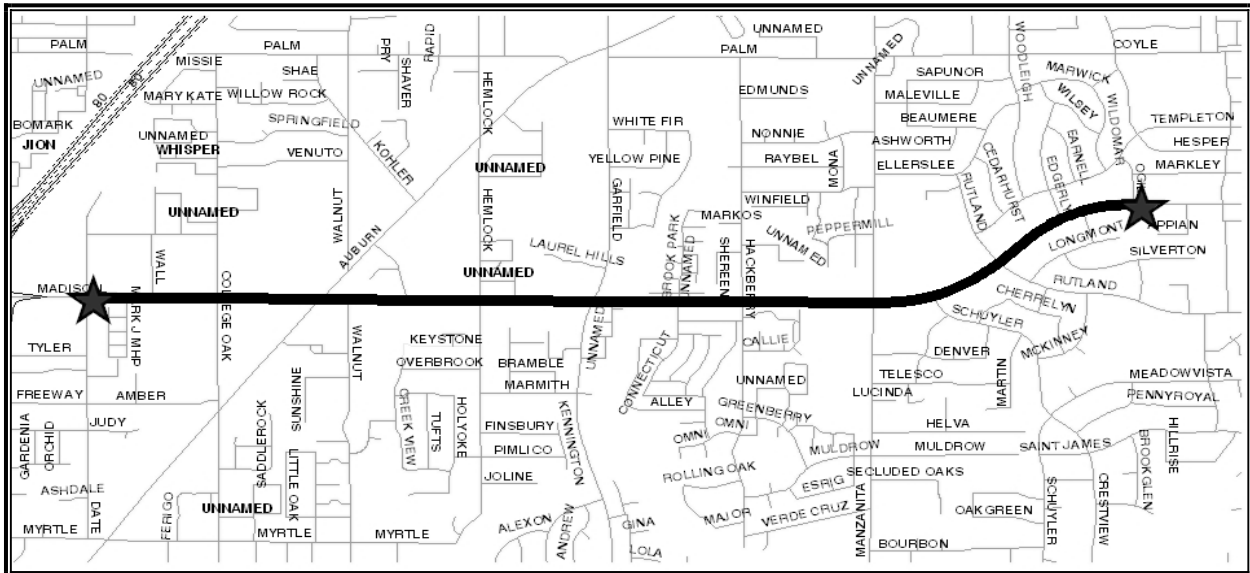

Project #43

Department: Transportation

Estimated Project Cost: \$1,046,000

Expected Completion Date: 2008

Funding Sources: Tree Preservation Fund

Project Description:

This project is a landscape installation project in the existing medians along Madison Avenue. A majority of the funding will come from the Sacramento Housing and Redevelopment Agency (SHRA) through a block grant. The Tree Preservation Fund (CDBG) money is being used to enhance the commercial corridor of Madison Avenue. Sacramento County Department of Transportation (SacDOT) will enter into an agreement with SHRA to provide design, bidding assistance, and construction oversight services on the project from Date Avenue to Hackberry Lane. SacDOT will also include oak tree planting and mulch cover in the medians between Hackberry Lane and Ogilby Way by using Tree Preservation Fund money. This project is within County right-of-way.

The objectives of the project are:

- 1) Improve the overall aesthetic enhancement and economic viability of the Madison Avenue Corridor.
- 2) Plant trees and landscape in the medians.
- 3) Install an automatic irrigation system, to allow more efficient maintenance of the Landscaping.

There is no road widening, major curb replacement or median re-configuration proposed in the current scope of work.

McClellan Economic Development Areas (EDA) Grant Project, Phase II

McClellan, CA 95652

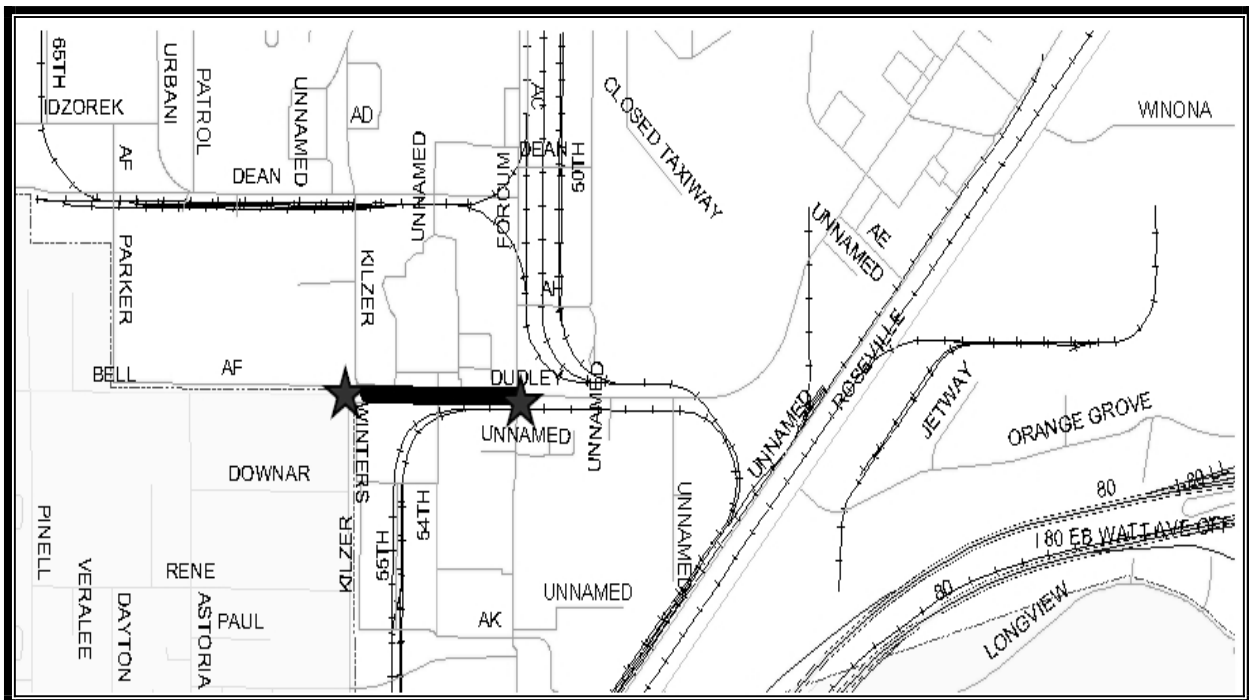

Project #45

Department: Transportation

Estimated Project Cost: \$6,110,000

Expected Completion Date: 2009

Funding Sources: Other (EDA Grants), Other (McClellan Park)

Project Description:

Many roadways identified for improvement in the McClellan Business Park reside in the South McClellan District (SMD). SMD redevelopment is envisioned as an office park with the SMD serving as a modern gateway from Interstate 80 to McClellan Park. Currently, the SMD is not a modern gateway and is in need of roadway and landscaping improvements. There was a prior improvement project, "McClellan EDA Grant 1 - Winter Street and McClellan Park Drive Roadway Improvements" (EDA Grant Project 1) that began this redevelopment process. The next project, "McClellan EDA Grant Project 2 - South McClellan District Street Improvements" (EDA Grant Project 2) will significantly enhance the modernization of SMD's roadway and landscaping infrastructure.

This project is expected to provide, at minimum, the following improvements:

- Continue construction of sidewalk, and landscaping on east side of Winters Street from EDA 1 completion to new Winters Street/Bell Street intersection.
- Place overhead utility lines to underground on east side of Winters Street.

CAPITAL IMPROVEMENT PLAN

TRANSPORTATION

- Realign Kilzer Avenue north 800 feet from new Winters Street/ Bell Street intersection to 60 feet R/W (collector).
- Create a new four-way, signalized intersection at Winters Street/Bell Street.
- Widen to 98 feet R/W (arterial) with landscaping and separated sidewalks, and landscape medians on Dudley Boulevard between Winters Street/Bell Street and Dudley Boulevard /Forcum Avenue intersections.
- Install storm drain system with Dudley Boulevard roadway improvements.
- Renovate four-way, signalized intersection at Dudley Boulevard/Forcum Avenue.

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Neighborhood Traffic Management Program

Sacramento County

Project #46

Department: Transportation

Estimated Project Cost: \$7,550,000*

Expected Completion Date: Ongoing

Funding Sources: Measure A Sales Tax, New Measure A Sales Tax

Project Description:

The development of the Neighborhood Traffic Management Program (NTMP) represents a comprehensive update to Sacramento County’s current approach towards addressing neighborhood traffic related issues. The NTMP will develop a manual to educate residents on what tools are available and their effects. The NTMP will also provide a systematic approach to initiating citizen requests to treat neighborhood traffic issues. A key element that will be developed is the neighborhood involvement in developing and approving a neighborhood traffic management plan. The NTMP will be considered a “Toolbox” for more options to treat traffic related issues. Implementation of the new NTMP will lead to new street design guidelines for new developments to reduce the future need for neighborhood traffic management devices.

*The total estimated project schedule exceeds the five year plan, therefore the project budget is greater than the five-year plan shown below.

North Kiefer Boulevard, Closure at Kiefer Boulevard

Sacramento, CA 95826

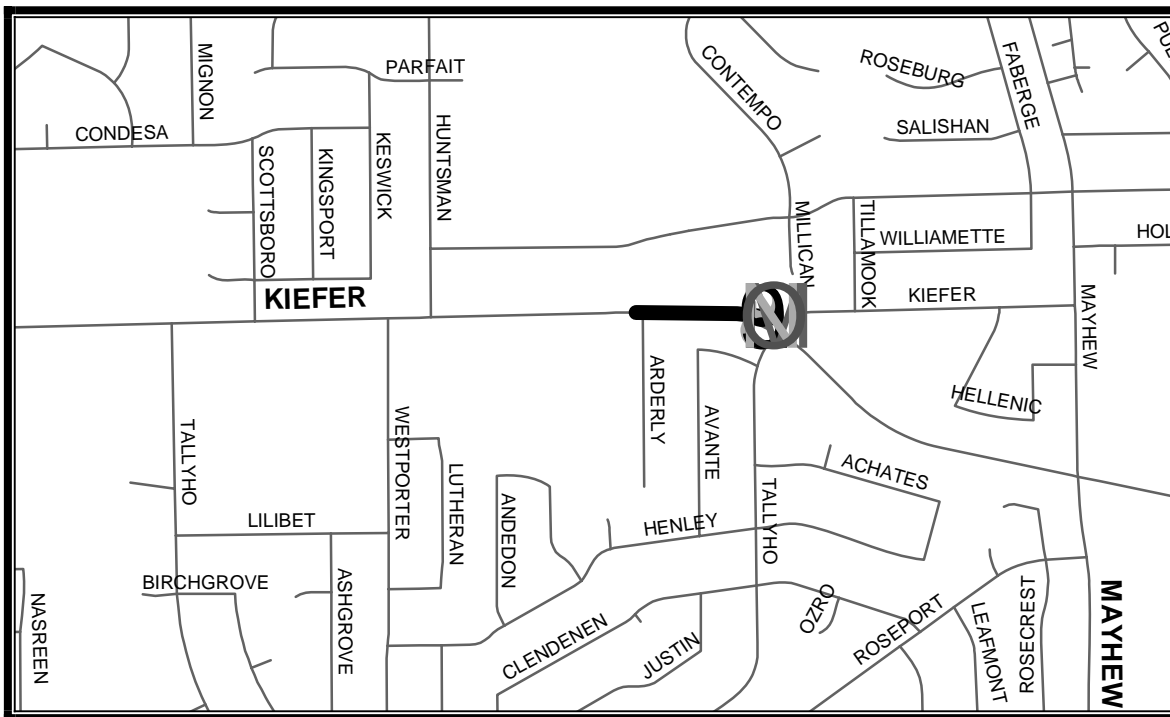

Project #47

Department: Transportation

Estimated Project Cost: \$1,629,000

Expected Completion Date: 2009

Funding Sources: Road Fund, Measure A Sales Tax, Other (Fair Share/In Lieu)

Project Description:

This project will provide a disconnection for vehicle access to North Kiefer Boulevard from Kiefer Boulevard by installing a cul-de-sac bulb on North Kiefer Boulevard. The project will also install a new traffic signal at the "T" intersection of Kiefer Boulevard at Tallyho Drive (east). Other improvements include the installation of curb, gutter, sidewalk, and asphalt paving that will connect the existing sidewalk improvements on the north side of Kiefer Boulevard from Arderly Court, east to the intersection at Kiefer Boulevard and Tallyho Drive (east). Existing sidewalk ramps at the intersection will be upgraded to comply with current Americans With Disabilities Act standards. Landscaping will be included in the cul-de-sac area. Slurry seal and new striping will be included throughout the length of the project.

Pacific Elementary Safe Routes to School Project

Sacramento, CA 95824

Project #48

Department: Transportation

Estimated Project Cost: \$1,028,000

Expected Completion Date: 2009

Funding Sources: Measure A Sales Tax, State Funds (SR2S)

Project Description:

The project will provide for improved safety and access for pedestrians and bicyclists in the vicinity of Pacific Elementary School. Proposed improvements include traffic calming measures such as curb extensions, medians at mid-block crossings, and high visibility pedestrian crossings, drainage, improved traffic circulation for drop-off and pick-up of students, and other bicycle and pedestrian upgrades. The project is funded by the Safe Routes to School (SR2S) Grant Program with the local matching funds from the Measure A Sales Tax.

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

Sacramento Safe Routes Five "E"s Planning Study

Sacramento County

Project #52

Department: Transportation

Estimated Project Cost: \$500,000

Expected Completion Date: 2010

Funding Sources: State (SR2S)

Project Description:

WALKSacramento, in coordination with the Department of Transportation, will conduct five walkability/bikability audits per year at K-8 schools located within the unincorporated planning areas of Sacramento County utilizing nationally recognized walkability/bikability experts. Each audit will be preceded by a student-parent school trip survey that will assess current walk/bike travel, issues and other pertinent data that assist with the audit design and determine impact of our project on education for school community leaders as part of the audit process so that sustainability for the program occurs. This project is being funded with federal funds from the Safe Routes To School (SR2S) program.

Sidewalk Ramp Improvement Project – District III

Sacramento County

Project #53

Department: Transportation

Estimated Project Cost: \$1,600,000

Expected Completion Date: 2009

Funding Sources: Other (SHRA, CDBG)

Project Description:

The project proposes to enhance both pedestrian safety and accessibility by installing Americans with Disabilities Act (ADA) sidewalk curb ramps. The project consists of removal of the existing curb, gutter, and/or sidewalk and installing new ADA sidewalk curb ramps at the various intersections within the Carmichael and Rancho Cordova Community. Work will be performed at: Tuolumne Drive; area bounded by El Camino Avenue, Eastern Avenue, Whitney Avenue, and Mission Avenue; and area bounded by Fair Oaks Boulevard, Barrett Road, Winding Way, and San Juan Avenue. Pedestrian signal heads will also be added at the intersection of Marconi Avenue and Eastern Avenue.

Operating Budget Impact:

The operating cost impact of this project is unknown at this time.

State Route 99 at Elverta Road Interchange

Sacramento, CA 95836

Project #56

Department: Transportation

Estimated Project Cost: \$29,824,000

Expected Completion Date: 2013

Funding Sources: Developer Fees, Measure A Sales Tax, Other State (SR99)

Project Description:

The project will construct a new interchange to replace the existing at-grade intersection in this location. The interchange will be constructed to its ultimate configuration including a standard Type L-9 two-quadrant partial cloverleaf interchange with ramp meters and High Occupancy Vehicle by-pass lanes. The four-lane overcrossing will have sufficient span to accommodate an eight-lane mainline. The project also includes off-ramp terminus traffic signals.

This project has been approved for state funding under the proposition 1B State Route 99 Bond Program.

Vineyard Road Bridge at Laguna Creek

Sacramento, CA 95829

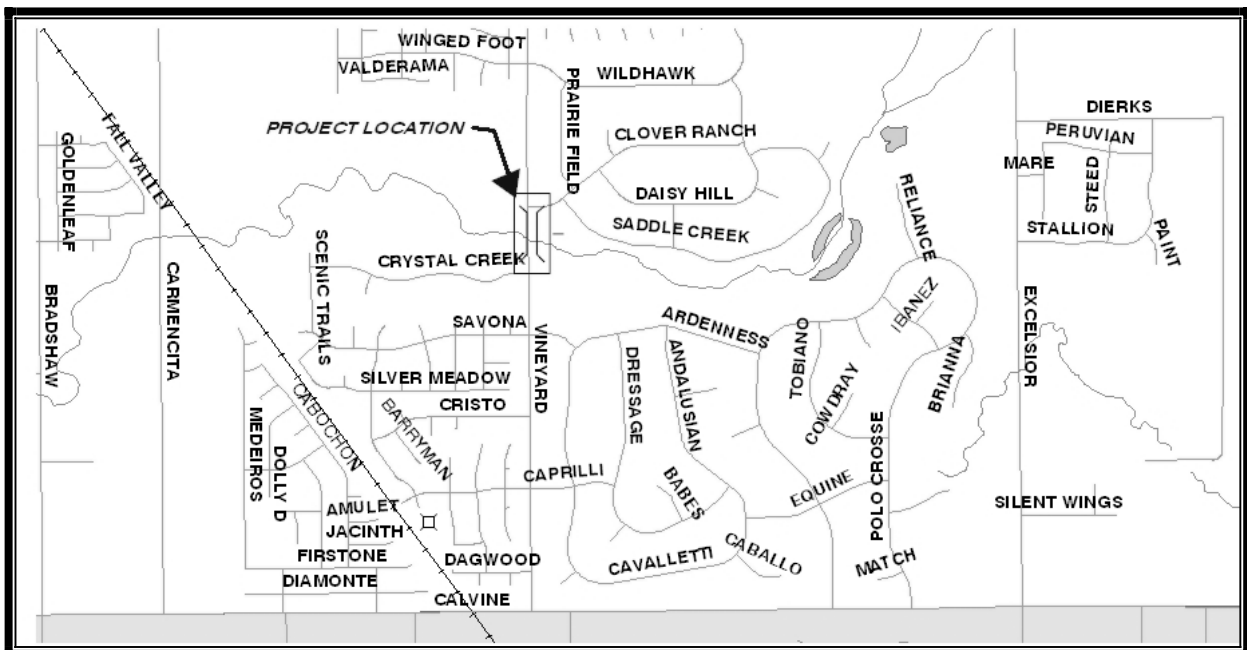

Project #57

Department: Transportation

Estimated Project Cost: \$5,750,000

Expected Completion Date: 2011

Funding Sources: Federal (HBR), Financing District (VIN)

Project Description:

This project proposes the replacement of the Vineyard Road Bridge at Laguna Creek with a wider structure to accommodate the ultimate four lane Arterial Roadway section, and construct associated roadway widening at the bridge approaches. The project also includes the construction of sidewalks along Vineyard Road as necessary to provide continuity of sidewalk in the area. This project is funded by a federal Highway Bridge Replacement and Repair (HBR) grant with a local match from the Vineyard Public Facilities Financing Plan.

Department: Transportation

Estimated Project Cost: \$52,520,000

Expected Completion Date: 2011

Funding Sources: Measure A Sales Tax, Measure A Sales Tax, Other (Local Funds), Other (None Identified), Federal Funds Needed, TEA-21 (RSTP) and TCRP

Project Description:

This is a State Highway improvement project to modify the existing interchange on U.S. Highway 50 at Watt Avenue, and the intersection of Folsom Boulevard and Watt Avenue. Improvements will be based on the South Watt Area Transportation Study, which is developing a master plan for improvements in the Watt Avenue corridor between the American River and State Route 16.

The project proposes to reconfigure the existing cloverleaf (L-10) interchange to a partial cloverleaf (L-9); realign and widen freeway ramps and install metering signals; provide a northbound and southbound auxiliary lane on Watt Avenue between U.S. Highway 50 interchange and Manlove Avenue; widen the existing Watt Avenue over-crossing; construct improvements to support bus rapid operations in the corridor; and construct separated northbound and southbound bicycle/pedestrian pathways along Watt Avenue between La Riviera Drive and the Folsom Boulevard intersection.

CAPITAL IMPROVEMENT PLAN

TRANSPORTATION

Partial funding has been approved for this project from the State Traffic Congestion Relief Program (TCRP), federal funding sources, and Measure A Sales Tax.

White Rock Road Improvements – Grant Line Road to Prairie City Road

Rancho Cordova, CA 95742

Project #64

Department: Transportation

Estimated Project Cost: \$26,600,000

Expected Completion Date: 2012

Funding Sources: Other (CMIA), Other (Local)

Project Description:

In order to relieve congestion and improve regional traffic circulation in eastern Sacramento County, the 50 Corridor Mobility Partnership has identified the need for improvements along White Rock Road from Grant Line Road to Prairie City Road. The proposed improvements consist of constructing a four-lane roadway along the existing road alignment of White Rock Road.

This project has approved funding from the Proposition 1B Corridor Management Improvement Account (CMIA).
