Program Description: State law requires that the County Treasurer (Director of Finance) shall receive and keep safely all monies belonging to the County and all other money directed by law to be paid to the County Treasurer in accordance to Government Code 27000. The County Treasurer in his/her discretion, may also serve as the Treasurer for other governmental agencies and districts. Pursuant to Government Code Section 27000.3, the Treasurer serves as a fiduciary for County funds deposited in the County Treasury, and is subject to the prudent investor standard. In accordance to Government Code Section 53607 and the County Charter 3.43.1 and subject to annual review and renewal by the Board of Supervisors, the Director of Finance is authorized to invest or reinvest the funds of the County and the funds of other depositors in the County Treasury. Investing all moneys must be considered a necessary task, to generate income for all participants in the Pool Investment Fund (PIF). In most cases, the alternative to retain moneys in a non interest bearing bank account belonging to the PIF would be imprudent for the Director of Finance as treasurer for the County. Monitoring of the investments is required to ensure internal controls are in place between the Investment and Treasury Divisions to prevent fraud and losses of money. In order to provide direction to those responsible for management of the PIF the Director of Finance has established an investment policy, which is approved by the BOS annually. Further, the investment policy will be reviewed and monitored by the county Treasury Oversight Committee (TOC) in accordance with Government Code 27133. The County of Sacramento established the TOC in accordance to Government Code 27131. The TOC is represented by public, appointed and special district elected individuals. The TOC is responsible to cause an audit of all County investments. The TOC who reviews the investment activity was previously mandated, however, the mandate is no longer required. To ensure public trust, the Director of Finance supports the continuation of the TOC and its quarterly meetings. Revenues for the PIF come from the interest earnings on the investments. Pursuant to Government Code 27013 the County Treasurer may deduct from such interest or income the actual administrative cost. In addition to the investment activities for the PIF and non Pooled funds, the Investment Division works with the Department of Personnel Services-Benefits in supporting the Deferred Compensation 457(b) Plan, the 401(a) Plan and the Retiree Health Savings Plan (Plans) investment options. The Board has adopted investment policies for each of these Plans. Although the Plans are not mandated, as a practical matter, the Plans are beneficial to any County employees wishing to take advantage of the tax deferral benefits. Work charged by the Investment Division are recovered from Department of Personnel Services.

Program Description: This task is mandated, as its activities are required per each debt issue's covenants. It has been determined that this mandated function is best performed by Treasury. The Treasury division provides investment, fiscal agent, paying agent, portfolio accounting, periodic reporting, arbitrage rebate analysis, and other services for debt financings. The program reports on 121 debt financings which include 242 funds, with total funds exceeding \$1.4 billion. Pursuant to Government Code Section 27000.3 (b), the Treasurer serves as a fiduciary for those funds deposited in the County Treasury by and at the discretion of local agencies and is subject to the prudent investor standard. In accordance to Government Code Section 53607 and the County Charter 3.43.1 and subject to annual review and renewal by the Board of Supervisors, the Director of Finance is authorized to invest or reinvest the funds of the County and the funds of other depositors in the County Treasury. Funds deposited in the County Treasury from the issuance of debt financing are accounted and invested for in the Non Pooled Investments. Investing, monitoring and reporting of the Non Pooled Investments are important functions to the County of Sacramento and the depositing agencies. The County Treasurer is subject to the investment policies as established and approved in the debt financings legal documents. Monitoring and accounting for the investments must be required to ensure internal controls are in place between the Investment and Treasury Divisions to prevent fraud, collusion or unwarranted transfers of securities or moneys. Reporting and disclosure requirements are mandated by the legal documents pertaining to each debt financing. The Director of Finance continues to provide monthly, quarterly and annual reports to the Non Pool Investments participants. Work charged by the Treasury is recovered from respective debt issuing local agency.

PROGRAM DESCRIPTION:

The primary responsibility of the Department of Revenue Recovery (DRR) is to help the County recover as much revenue as possible from all its billing and receivable functions as early in the process and as cost effectively as possible. The recovery of revenue aids the programs receiving the funds and helps to maintain public service levels and reduce the need for service fee increases to the public. By implementing cost effective accounts receivable practices throughout the County, DRR helps ensure that taxpayers are not required to bear the burden of debts that are the legal responsibility of specific individuals. To accomplish this, the department:

- Efficiently processes current and delinquent accounts receivables from various county departments, the Superior Court, and other local entities, such as cities, special districts and local authorities by sending out consolidated statements and delinquent notices as needed.

PROGRAM DESCRIPTION:

- Initiates outgoing telephone calls to delinquent debtors in order to collect amounts due or reestablish a payment schedule when appropriate to help citizens in repaying amounts owed.
- Responds to incoming telephone calls and correspondence in order to increase payment compliance.
- Performs duties as the County's Financial Evaluation Officer in accordance with laws and regulations.
- Utilizes all legal means to enforce collection of delinquent debts.
- Functions as centralized point for the County to minimize administrative costs to efficiently take advantage of volume discount pricing on certain processes such as State Court Ordered Debt, State Tax Refund Offsets, lawsuit processing, skip tracing, bankruptcy processing and relief of accountability.
- Works in cooperation with a number of entities to identify funds owed to the County when there remain funds available collected by DRR, which can then be distributed to other entities where the debtor may also have an unpaid obligation.
- Acts as central repository so available funds can be used to satisfy a debtor obligation regardless of where it may reside within the County.
- Consults and partners with departments to help identify cost effective ways to accelerate the recovery of revenues.

The County also purchases excess Liability Insurance to cover claims above a self-insured retention of \$2.0 million. Sacramento County also utilizes pooled and group insurance purchasing programs for certain coverages including property, boiler and machinery, aircraft, airport operations and pollution liability. The Liability Insurance program is administered by the Risk Management Office in the Department of Personnel Services. The mission of the Liability Insurance program is to effectively manage risk and the impact of liability and property losses through the use of self-insurance, excess insurance, specialized insurance policies, contractual risk transfer, and the effective and timely handling of claims. The costs of the Liability Insurance program are allocated to County departments based on 70 percent 7-year claims history and 30 percent full-time equivalent (FTE) positions.
- Property Insurance** – The Risk Management Office purchases a property insurance policy for County-owned property and administers all claims against the policy. The costs of Property Insurance for County-owned properties where the properties/facilities are 100 percent administered and/or occupied by a single department are allocated by the Department of Personnel Services to the respective department. Costs of Property Insurance for County-owned facilities occupied by multiple departments are allocated by the Office of Financial Management based on the percentage of total building square footage each department occupies. The costs of all Property Insurance are based on property value.
