## INTRODUCTION

General Government departments are those that report directly to the Board of Supervisors or to the County Executive. In addition, the Executive Officer of the Civil Service Commission reports to the Civil Service Commission, the Local Agency Formation Commission (LAFCo) Board controls the utilization of the County's contribution to LAFCo, and the Sacramento County Employees' Retirement System (SCERS) controls the budget for the System's Retirement Administration. Following is a summary of the budget units that fall into these categories:

- Reports to the Board of Supervisors – County Counsel and County Executive
- Reports to the County Executive – Airport System, Clerk of the Board, County Executive Cabinet, Economic Development, Emergency Services, Labor Relations, and Planning and Environmental Review.
- Reports to/controlled by Independent Authority – Board of Retirement, Civil Service Commission, Fair Housing Services, Contribution to LAFCo, County Library, Criminal Justice Cabinet, and Natomas Fire District.

**PROGRAM DESCRIPTION:**

- The Sacramento County Department of Airports (Department) is responsible for planning, developing, operating and maintaining four public use airport facilities in Sacramento County (the Sacramento County Airport System, or Airport System). The Airport System is comprised of Sacramento International Airport (a commercial air carrier facility), Mather Airport (a cargo and general aviation facility), Executive Airport (a general aviation facility) and Franklin Field (a general aviation facility). Operated as an Enterprise Fund, the Airport System is financially self-supporting, with expenses paid for by revenue generated from businesses and individuals who use the airports.
- The Airport System primarily serves the Sacramento region, a six-county area consisting of Sacramento, El Dorado, Yuba, Sutter, Placer and Yolo counties, as well as a large secondary surrounding area. In addition to promoting the safe and efficient use of air transportation facilities, the Department is responsible for managing the environmental impacts within the Sacramento region associated with the operation and development of the Airport System facilities.

**MISSION:**

The Department of Airports will deliver a safe, customer friendly and competitive aviation transportation system that promotes the region’s prosperity.

**GOALS:**

- Actively reinforce the positive impact of the Sacramento County Airport System on the Northern California region and increase the level at which community members value each of the airports within the system.
- Operate and maintain our facilities so that airline rates and charges are competitive with other similar airports.
- Operate and maintain the County’s aviation assets in a financially sustainable manner.
- Successfully partner with the California Capital Airshow for the 12th Annual Airshow at Mather Airport, thus resulting in positive perception of Sacramento County by the public.
- Increase awareness among the private and public agencies regarding the need to reduce potential interactions between aircraft and hazardous wildlife through land use decisions that minimize wildlife attractants.

**SIGNIFICANT DEVELOPMENTS DURING 2016-17:**

- **Sacramento International Airport (SMF)**

- As of March 2017, Passenger Enplanements have increased by 163,653 passengers or 4.5 percent Fiscal Year-To-Date year over year from Fiscal Year 2015-16. An Additional 1,839 departing flights were added during Fiscal Year, for an additional 412,749 departing seats. New non-stop service was added to Baltimore, Newark and Los Cabos, Mexico. SMF is averaging 132 flights per day to 32 nonstop destinations during Fiscal Year 2016-17 versus 127 flights per day operated to 31 nonstop destinations during Fiscal Year 2015-16.
- The East Taxiways Project was a partnership with the Federal Aviation Administration (FAA) to complete a \$35 million project at Sacramento International Airport (SMF) to reconstruct Taxiway D and its associated taxiway complex on the east side of the airfield. The project also extended Taxiway W to Taxiway D which completes and provides a dedicated Crossfield taxiway for aircraft. The FAA funded approximately \$16.4 million through an Airport Improvement Program (AIP) grant toward the project. The reconstruction of Taxiway D and its associated taxiways will improve overall airfield operational efficiency and safety at SMF.
- In spring of 2016, Airports purchased two sets of Exit Lane Technology equipment to be installed in Concourse B at SMF. The purpose of the project is to stop unauthorized movement of people and objects into the secure area of the concourse, the equipment eliminates the need for human guards for this task and automates the process which reduces the cost to the airport for this service. The primary functions of this equipment are to monitor, detect, warn, alarm and isolate if there is an intruder or object in compliance with the Department of Homeland Security, Transportation Security Administration standards. The East side installation was completed in November 2016 and the West side in March 2017. The project also included the construction of emergency exit bypass platforms and stairwells to allow safe egress from the exit lane corridors.
- The Terminal B West Apron Improvements project will replace the asphalt concrete patches left in the west apron from the footprint of the old Terminals B1 and B2 at the end of the Big Build Project. The patches will be replaced with structural Portland Cement concrete and will allow realignment of a taxilane in the West Apron to increase Remain Overnight (RON) aircraft parking spaces. Also included in this project is the expansion of Cargo 1 parking apron, localized pavement repairs in the area currently used by FedEx and realignment of the vehicular service road along the south edge of this apron. The project is critical to both Southwest Airlines and FedEx as both airlines have increased their daily operations at SMF and allows the flexibility to maximize the utilization of the West Apron as airline operations continue to grow. The design for all four elements is complete. The project will be divided up into two phases. The first phase, Cargo 1 parking apron expansion and 50 percent of pavement replacement in the west apron, started construction in March. The remaining work has been scheduled for summer of 2017 construction.
- Terminal A renovations continued with the completion of new passenger lounge area between Gates A12 and A14 in Concourse A and in front of Starbucks located in the Terminal A lobby as well as the "On the Go" vending areas.

**SIGNIFICANT DEVELOPMENTS DURING 2016-17 (CONT.):**

- **Sacramento International Airport (SMF)**
  - SMF Master Plan update was accepted by the Board of Supervisors and forwarded for environmental review in February of 2017. The Master Plan update builds on post-big build aspects of the 2017 Master Plan with a focus on optimizing customer experience and throughput as SMF continues to experience steady post-recession growth.
- **Mather Airport**
  - The Taxiway B Rehabilitation project rehabilitated the pavement on Taxiway B which connects Taxiway A and Runway 4L/22R at Mather Airport. Along with pavement rehabilitation, the project brought the taxiway into compliance with the current FAA design guidelines. The overall project cost is approximately \$1.1 million, and the Department of Airports received an AIP grant in the amount of \$996,924 from the FAA for this project.
- **McClellan Airport**
  - Airports and the Office of Economic Development and Marketing are working together to transfer McClellan Airport management to McClellan Business Park.

**SIGNIFICANT CHANGES FOR 2017-18:**

- **Sacramento International Airport**
  - The Oxidation Pond Remediation Project at the SMF mitigates and removes contaminating materials as required by the State Water Quality Control Board. The airport ceased operation of the ponds in 2011 following the completion of the sewer line connection to the County Sanitation District's system. Start of construction is planned for summer of 2017.
  - The West Runway Rehabilitation project will rehabilitate the pavement on Runway 16R/34L at SMF. This project will be in partnership with the FAA for an AIP grant for construction. A consultant was awarded the contract through a Request for Qualifications process that took place in August 2016. Design is currently under way and the project is scheduled to go out to bid by winter of 2017.
  - The Concourse A Jetbridge Replacement project will remove and replace the Jetbridges located at Terminal A. The Jetbridges are approaching 20 years of age and require replacement as equipment is reaching the end of its useful life. The project will also bring gate A11 back into service which was closed due to the expansion of a baggage processing facility associated with Terminal A's baggage handling system modernization project. Procurement of the new Jetbridges is scheduled to start in the summer of 2017.
  - The Airports Sustainability Master Plan was initiated in March of 2017 and when completed in the latter part of 2017 will provide a pathway to ensuring sustainability is integrated into airport planning, operations, maintenance and development at all Department facilities.
  - The first phase of a multi-phase Sustainable Landscaping Improvements project will improve the irrigation infrastructure and reduce the amount of turf on the campus to save water and maintenance costs. A conceptual design was completed and approved in 2016. The subsequent phases will build on that concept for construction and phase it accordingly. Design for construction plans and specifications have started and will go out to bid in winter 2017 with construction in spring 2018.

**SIGNIFICANT CHANGES FOR 2017-18 (CONT.):**

- **Sacramento International Airport (cont.)**
  - Terminal A renovations will continue to move forward over the next few years, with the purchase of all new gate seating and the start of replacing flooring, installation of energy efficient lighting and wayfinding signage. Furnishings and a new information counter are planned for meeting and greeting airport customers in the area by baggage claim. Also planned for Terminal A is the redesign of all the public restrooms with construction happening the following year.
  - Airports is currently initiating the development of a Safety Management System for SMF. This system integrates a collection of processes and procedures that ensures a formalized and proactive approach to safety through risk management.
  - Airports entered into an agreement that will see construction completed in December 2017 of two solar photovoltaic electric generating facilities at International Airport. Upon completion of the project, the airport's solar facilities will occupy a currently undeveloped 17-acre site on the airfield and a 15-acre site located just north of the economy parking lot on the Airport's "landside". It is estimated that the Department will save an average of \$850,000 a year in electric utility costs for the 25-year term of the agreement.
- **Mather Airport**
  - In October 2016, Airports began the first phase of the Truemper Road Extension project at Mather Airport. This project includes the construction of a new main access road, which extends from the intersection of Von Karmon and Whitehead to a point approximately 1,000 feet southwest of the intersection to allow the creation of a new flightline for future aviation related and commercial development. This project is scheduled for completion in July 2017.
  - Along the newly created Truemper Road frontage, Mather Jet Center will construct a new, privately funded development, which includes a large fixed based operator (FBO) hangar and four executive hangars for corporate aircraft.
  - The General Aviation Apron Rehabilitation will rehabilitate approximately 30 acres of pavement along the new flight-line and development area at Mather Airport. In addition to improving the pavement condition, the project will construct drainage improvements for additional flood protection and a water quality device for treatment of runoff. Airports expects to receive approximately \$3.5 million of AIP funding from the FAA for this project, and the project is scheduled to go out to bid at the end of May 2017 with construction starting in summer of 2017.
  - Pending a spring 2017 feasibility analysis, an upgrade of Mather's Instrument landing System to Category II Special Authorization criteria will be initiated in FY 2017-18 through equipment acquisition and installation and procedure development in partnership with the FAA and UPS. Once operational this system promises to reduce the number of flights that have to hold over communities waiting for weather to improve or divert to other airports, thereby minimizing emissions and noise and improving airport efficiency. This project has the support of Congressman Ami Bera.

**SUPPLEMENTAL INFORMATION:**

- **Operating Revenues**
  - Budgeted operating revenues of \$175,431,599 represent an increase of approximately \$4.5 million compared to the prior-year budgeted operating revenues. The increase is largely due to anticipated increases in parking revenue and concessions resulting from the increase in passenger enplanements.
- **Operating Expenses**
  - Budgeted operating expenses of \$152,618,280 represent an increase of approximately \$4.1 million compared to the budgeted operating expenses from the prior year. The increase in budgeted operating expenses is due to an approximately \$1.6 million increase in Salaries and Benefits, \$2.6 million increase in Services and Supplies and \$183,745 decrease in Other Operating Expenses.
- **Capital Outlay**
  - Budgeted Capital Outlay expenses of \$45,710,400 represents a decrease of approximately \$42.2 million compared to the budgeted operating expenses from the prior year. The decrease is due to the completion and deletion of various projects including the completion of the \$32.0 million project “Rehabilitate Taxiway D and Connections to Runway 16L.” Projects included in the Airport System’s capital budget will contribute to the traveling experience of airport customers, provide the infrastructure needed to safely and effectively accommodate current demand, and help meet the future demand of air travel.

**RECOMMENDED GROWTH FOR 2017-18:**

**PROGRAM DESCRIPTION:**

This Budget Unit provides funding for capital maintenance and related costs at Sacramento County owned Sacramento Public Library Authority branches.

- The Sacramento Public Library Authority (SPLA) provides all public library services in Sacramento County, except the City of Folsom. The County and City of Sacramento established the SPLA as a Joint Powers Authority (JPA) in 1993. The governing board is a 15 member body consisting of five members of the County Board of Supervisors, five members of the Sacramento City Council, two members from Elk Grove, one member each representing the cities of Citrus Heights and Rancho Cordova, with the remaining member shared by the cities of Galt and Isleton. SPLA funding is provided primarily by a dedicated property tax source and other revenue sources received directly by the SPLA.
- This County Library Budget provides funding for capital maintenance, capital repairs, preventative maintenance, property insurance and related costs at the nine SPLA branches owned by the County of Sacramento. (These costs at the other 19 SPLA branches are supported by separate SPLA funding sources.)
- SPLA provides public library services to all citizens of the County. A broad range of services includes: books, eBooks, DVDs, reference and information services, inter-branch and inter-library loans, early literacy and adult literacy programs and services, and special programming for children, teens, and adults. All library branches provide public access to computers and the Internet, including wireless Internet service. Materials in the collection are available in a number of languages and in several different media such as print and electronic. Eighteen locations provide community rooms for use by non-profit groups. The catalog is available 24 hours a day via the Internet at [www.saclibrary.org](http://www.saclibrary.org). Reservation and renewal of materials, and sign ups for programs and community rooms can be done on-line.
- As a benefit to SPLA and the community, the Sacramento Public Library Foundation and the Friends of the Sacramento Public Library provide additional funding for various pre-approved programs, projects and materials.
- Under terms of the JPA, funding for construction and maintenance of the county facilities is the responsibility of the County of Sacramento. Capital funding collected through developer fees are accumulated in separate county funds and are only available for construction and renovation of Library facilities and cannot be used for operations.

Under the direction of the Chief of Emergency Services, OES develops, coordinates and implements plans and procedures for local emergency services activities; performs a variety of activities related to mitigation, preparedness, recovery and response to incidents or disasters; facilitates, coordinates and delivers emergency management training to the County and the Operational Area; provides 24 hour emergency response to assist local first responders including law enforcement, fire departments and coordinates all resources in the region in the event of disaster; administers homeland security grants for the region and manages the emergency operations center for the County and the Operational Area.

**MISSION:**

To provide for the development of Sacramento's Emergency Response Plan and for the coordination of that plan with the County's emergency response organization and other local, state, and federal agencies in order to mitigate, prepare for, respond to, and recover from the effects of a natural or technological disaster. To provide for coordination of Operational Area (OA) resources, information, and priorities among local governments within the County and between local governments and the state.

**GOALS:**

- Ensure integrated response to disasters by using the Standardized Emergency Management System (SEMS) and the National Incident Management System (NIMS), developing response capabilities, maintaining and improving the County's Emergency Operations Center (EOC), providing for immediate and sustained response operations, and enabling a smooth transition into long-term recovery.
- Provide emergency managers, county staff, and personnel from the Operational Area agencies, comprehensive and relevant skill development through training and exercises in emergency management and public awareness programs.
- Enhanced local government capability to respond to all types of disaster events by coordinating the acquisition, distribution and oversight of federal Homeland Security grants.
- Improve the county's capability to alert and message the public during disasters through public outreach and increased public registration in the Sacramento Alert system.
- Continue to provide care & shelter training to the region and coordinate non-county agencies with care & shelter responsibilities such as American Red Cross in all response activities before, during and after a disaster.

**SIGNIFICANT DEVELOPMENTS DURING FISCAL YEAR 2016-17:**

- Funded the Sacramento Medical Reserve Corp (SMRC) Coordinator and expanded the scope of work to include public education and outreach. Office of Emergency Services (OES) contracted for a person to coordinate the activities of the SMRC and to assist OES with public outreach and education. This work was previously funded through homeland security grants; however, this funding ended in Fiscal Year 2016-17 and was no longer available for SMRC. The cost for this position is \$60,000.
- Sacramento County experienced a series of large storms in both January and February of 2017. Significant localized flooding occurred particularly in the southern parts of the County. The County Executive proclaimed a local state of emergency on January 11th for the January storms and on February 17th for the February storms. The Board of Supervisors ratified both proclamations. Damages from the January storms are estimated to be approximately \$14 million and the February storm damages are estimated to be approximately \$18 million. County OES activated the Emergency Operations Center for both storm events and is currently working with Cal OES and Federal Emergency Management Agency (FEMA) on the recovery phase of the events as well as assisting the local agencies, including the County departments, with their damage and cost estimates.

**SIGNIFICANT CHANGES FOR 2017-18:**

- Reallocating the vacant Administrative Services Officer II (ASOII) position responsible for Care & Shelter to an Assistant Emergency Coordinator (AEC) position. This change was required due to the increase or broadening of the scope of work related to this position. The cost difference between the ASOII and AEC position is approximately \$27,000 and will be funded through homeland security grants.
- The January and February storm related emergencies that occurred in Sacramento County have moved into the recovery phase requiring County OES to work closely with all local county governments in their efforts to recover storm related costs through California Disaster Assistance Act and FEMA available programs. OES estimates this process will take approximately 18 months or longer to complete. Flooding from snow melt-off will continue to threaten the county through July of 2017 keeping OES staff busy with mitigation and potentially response activities.

**RECOMMENDED GROWTH FOR 2017-18:**

- On-going recommended growth requests include:
  - Appropriations of \$27,666 offset by revenues of \$27,666.
- Details are included in the Program Information - Growth Request Recommended section of this budget unit.

**GOALS:**

- Ensure district funding is available for transportation facilities through financial management of bond proceeds.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

**PROGRAM DESCRIPTION:**

- Laguna Creek Ranch/Elliott Ranch Community Facilities District No. 1 (CFD-1) is located in the western part of Elk Grove and is generally bounded by Elk Grove Boulevard on the south, the Sacramento Regional Wastewater Treatment Plant on the north, Interstate 5 on the west, and the Union Pacific Railroad on the east.
- The Laguna Creek Ranch/Elliott Ranch CFD-1 is comprised of Improvement Area No. 1 (Laguna Creek Ranch) and Improvement Area No. 2 (Elliott Ranch).
- The District provides for the construction of major public improvements that are primarily financed through the issuance of Mello-Roos special tax bonds. The debt service on these bonds is paid through the annual levy of a voter-approved special tax within the District boundaries that is subject to the maximum authorized tax rates. The entire tax bond proceeds received are deposited with the Sacramento County Department of Finance and are drawn upon as infrastructure construction progresses.

**MISSION:**

To distribute funds within the guidelines of the bond covenants to the City of Elk Grove for the major public infrastructure necessary to urbanize the Laguna Creek Ranch/Elliott Ranch area. This includes remaining construction authorized when the District was formed in 1990 of freeway interchange, railroad overcrossing, roadway, public transit, fire protection, park, storm drainage and flood control facilities. Most of these facilities were completed prior to incorporation of Elk Grove in 2000.

**GOAL:**

Collaborate with the City of Elk Grove to schedule remaining authorized facilities projects with the available District financing.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

The increase in available fund balance of \$147,830 is due to lower services, supplies and administrative costs.

**RECOMMENDED BUDGET RESERVE BALANCES FOR 2017-18:**

**Reserve for Construction: \$3,155,494**

This estimated reserve was established in 1998 to finance major public improvements and reflects an increase of \$13,500 for Fiscal Year 2017-18. Bond proceeds are the primary financing source for the construction of infrastructure projects scheduled in the Laguna Creek Ranch/Elliott Ranch CFD-1 Financing Plan. Bond proceeds remaining after the first year obligations were met, were placed in the Reserve for Construction. Typically, these reserves are drawn upon each fiscal year when the combination of available fund balance and anticipated revenues are insufficient to fund current year construction.

**PROGRAM DESCRIPTION:**

- Metro Air Park 2001 Community Facilities District No. 2000-1 (District) is located within Sacramento County, bounded by Interstate 5 on the south, Powerline Road on the west, Elverta Road on the north, and Lone Tree Road on the east. The District project consists of a high-quality, multiuse, commercial and industrial business park proposed for development on a 1,892 acre area immediately east of and adjacent to the Sacramento International Airport.

- The District financing provides for the infrastructure including roadway, freeway, drainage, sewer and water facilities primarily financed through the issuance of Mello-Roos special tax bonds. The debt service on these bonds is paid with a voter-approved annual special tax levy within the District boundaries subject to the maximum authorized tax rates. The entire bond proceeds received are deposited with the Sacramento County Department of Finance and are drawn upon as infrastructure construction progresses.

**MISSION:**

To provide public infrastructure and facilities necessary for Metro Air Park CFD to develop. This includes construction of roadway, freeway, drainage, sewer, and water facilities.

**GOAL:**

Ensure that necessary financing is available when needed for planned projects. This includes provisions for, and documentation of, reimbursement payments to private developers for infrastructure work performed at the developers' initial expense.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

The fund balance increase of \$7,805,199 is associated with the collection of delinquent special tax assessments during the Fiscal Year 2016-17.

- This Services Tax appears as direct levies on all property tax bills within the boundaries of Metro Air Park, except those exempt by statute.

**MISSION:**

To provide maintenance revenue for facilities within the development of Metro Air Park Community Facilities District. This includes maintenance of roadway, drainage, water facilities, and traffic monitoring.

**GOAL:**

Ensure necessary revenue is available when needed for maintenance projects.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

The fund balance decrease of \$12,338 is due to the costs associated with district administration and lower than anticipated direct levy revenue, as a result of delinquencies in the district.

## PROGRAM DESCRIPTION:

- North Vineyard Station Specific Plan Area (NVSSP) is located in the County of Sacramento, approximately 13 miles southeast of Downtown Sacramento and two miles north of the City of Elk Grove. The NVSSP includes approximately 1,591 acres that are bound by Florin Road on the north, Gerber Road on the south, the extension of Vineyard Road on the east, and Elder Creek (west side, top of channel), which roughly constitutes the western border.
- This program is financed primarily through the collection of development impact fees. A large portion of the facilities in the Capital Improvement Plan are anticipated to be constructed by the development community and credits will be given for the constructed facilities in-lieu of the payment of development impact fees. This and fluctuations in development activity may result in significantly lower revenues and expenditures than appropriated in the annual budget.

## MISSION:

To provide portions of the major public infrastructure necessary for the urbanization of the NVSSP area. This includes construction of roadways, frontage lanes, public transit, library, and park facilities.

## GOALS:

- Ensure project support is provided by county departments and noncounty agencies for infrastructure project design and construction, environmental impact matters, cost sharing agreements, contributions and reimbursements, and District land use impacts.
- Monitor and ensure adequate District funding is available for planned projects. Funding is provided through the collection of development impact fees.

## SIGNIFICANT DEVELOPMENTS DURING 2016-17:

Repayment to the Vineyard Fee Program Roadway Fund for the interfund loan associated with the Freeport Regional Water Authority's construction of the Gerber Road improvement.

## SIGNIFICANT CHANGES FOR 2017-18:

- Complete the construction of the traffic signal at Florin Road and Hedge Avenue.
- Complete the construction of the Gerber Road and Waterman Road Intersection.
- Complete the construction of the traffic signal at Bradshaw Road and Alder Creek.
- Complete the construction of a portion of Waterman Road.
- Complete the construction of a portion of Florin Road shoulder widening.
- Complete the construction of Florin Road at Elder Creek crossing.

**SIGNIFICANT CHANGES FOR 2017-18 (CONT.):**

- Complete the construction of the Florin Road and Waterman Road Intersection.
- Update North Vineyard Station PFFP, including updating the Roadway, Frontage, Transit and Park Capital Improvement Programs and updating the development base.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

The decrease in available fund balance of \$333,342 is due to the Freeport Regional Water Authority's reimbursement for the construction of the Gerber Road Improvement.

**PROGRAM DESCRIPTION:**

- Vineyard Public Facilities Financing Plan Development Impact Fee Program is located in the southern part of Sacramento County and generally bounded by State Route 99 on the west, Gerber Road on the north, the agricultural-residential area near Grant Line Road on the east, and Calvine Road on the south.
- The Vineyard Fee Program is financed primarily through the collection of development impact fees.
- Timing of infrastructure development may differ from the original Capital Improvement Program due to fluctuations in development activity, thus deviating from the original forecast. This may result in significantly lower expenditures than annual appropriated project costs and under collection of budgeted revenues.

**MISSION:**

To provide portions of the major public infrastructure necessary for the Vineyard area to urbanize. This includes construction of major freeway interchanges, roadways, public transit, fire protection, library, community center, and park facilities.

**GOALS:**

- Ensure project support is provided by county departments and noncounty agencies for infrastructure project design and construction, environmental impact matters, cost sharing agreements, contributions and reimbursements, and District land use impacts.
- Monitor and ensure adequate District funding is available for planned projects.

**SIGNIFICANT DEVELOPMENTS DURING 2016-17:**

Completed the construction of the Vineyard Road Bridge at Laguna Creek.

**SIGNIFICANT CHANGES FOR 2017-18:**

- Commencing the construction of the Elk Grove- Florin Road widening from north of Elder Creek to Florin Road.
- Completing the design of the bridge replacement at Elder Creek and Elk Grove- Florin Road.
- Update Vineyard PFFP, including updating the Roadway, Transit and Park Capital Improvement Programs and updating the development base.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

The estimated fund balance decrease of \$2,912,679 is due to planning, design and construction costs of infrastructure projects financed by the district.

**PROGRAM DESCRIPTION:**

- Natomas Fire District funds the provision of fire protection services to approximately forty square miles of the Unincorporated Area in the northwestern portion of Sacramento County. Natomas Fire District is a dependent special district and the Board of Supervisors serves as the Board of Directors for the District.
- Fire protection service is contracted to the Fire Department of the City of Sacramento. The District and the City entered into the contract in Fiscal Year 1984-85. All district assets, including equipment and real property, were turned over to the City. The City absorbed all district employees who did not retire at the time.
- The contract calls for the annual payment of all available financing to the City for the fire protection service, less County administrative expenditures such as biannual audits, property tax administration fees, and administrative service charges.
- District financing consists of property taxes (including the homeowners’ subvention), interest earnings, and fund balances.
- Economic Development is responsible for managing the contract with the City, making payments and preparing the district budget.

**MISSION:**

To provide fire protection to a special district in the Unincorporated Area in the northwestern part of Sacramento County.

**GOAL:**

To provide timely and effective fire protection services to the special district area.

**RECOMMENDED BUDGET FUND BALANCE CHANGES FOR 2017-18:**

The estimated decrease in available fund balance of \$170,785 from the prior year is due to the transfer of available fund balance to the City of Sacramento.

**PROGRAM DESCRIPTION:**

- The major general purpose revenues, such as property taxes, sales tax, property tax in lieu of vehicle license fees, and the utility tax, not linked to a specific program or activity, are accounted for in this budget unit. These revenues, along with General Fund balance and net reserve changes, are the sources of the net general purpose financing allocations to General Fund departments and the Courts.
- The financing sources include both revenues and transfers from other funds, which show in the budget as negative appropriations.
- Property taxes, sales tax, and property tax in lieu of vehicle license fees make up 75 percent of the total general purpose financing for the County.
- The general purpose revenues come from differing geographic areas. The County’s property taxes are derived from the entire county. Sales tax, utility tax, and franchise fees come from the Unincorporated Area only. Vehicle license fees are allocated to the County from a statewide pool on the basis of population and the assessed values of property, not on the basis of fees paid within the County. Property tax in lieu of vehicle license fees is a swap of vehicle license fee revenues for ad valorem property tax revenues.

**SIGNIFICANT CHANGES FOR 2017-18:**

- Property tax-related and Teeter Plan revenues and transfers are projected to increase by \$12.2 million from prior-year estimated actual levels.
- Property Tax In Lieu of Vehicle License Fees are projected to be \$9.1 million above prior-year estimated actual levels, an increase of 6.1 percent.
- Sales and Use Tax revenues are projected to increase by \$2.5 million from prior-year estimated actual levels, an increase of 3.2 percent.
- The county’s Utility User Tax is budgeted at \$18.7 million, an increase of \$0.1 million from prior-year estimated actual levels.

**PROGRAM DESCRIPTION:**

- This budget unit provides for the appropriations for the annual lease payments and the Debt Service Reserve Fund for the unrefunded portion (Carol Miller Justice Center facility) of the County of Sacramento 1997 Certificates of Participation (COPs) Public Building Facilities Project.
- On December 10, 1996, the Board of Supervisors approved a financing plan for the 1997 COPs Public Building Facilities Projects, which included the following projects:
  - Construction of the 448-bed dormitory-style jail at the Rio Cosumnes Correctional Center.
  - Purchase of the Bank of America building (730 I Street) and associated tenant improvements.
  - Refunding of the 1988 CSAC II and 1990 Public Facilities Project COPs (Carol Miller Justice Center facility).
- The financing (\$58,020,000) was executed and closed on January 28, 1997. At the time of sale, \$5,214,116 was deposited as a reserve with Debt Service Fund. The terms of the agreement authorizing the sale of securities require that this reserve be retained to be used as the final annual lease payment. The debt service payments began on August 1, 1997.
- On March 7, 2006, the Board approved the 2006 COPs (Public Facilities Projects) financing to partially refund and defease approximately \$15,000,000 of the 1997 Public Facilities COPs in order to release the Bank of America Facility as security for those bonds. Since the Carol Miller Justice Center facility portion of the 1997 COPs was already refunded, it could not be part of the 2006 COP transaction.
- On October 30, 2014, the County of Sacramento 1997 Certificates of Participation (COPs) Public Building Facilities Project bonds were fully redeemed and as a result the Reserve Fund held by US Bank was liquidated and wired to the County of Sacramento. The remaining funds were transferred to the County’s general fund as part of the Fiscal Year 2015-16 budget.
- In Fiscal Year 2016-17, the interest accrued on the remaining funds from Fiscal Year 2015-16 was transferred to the County’s general fund.

**PROGRAM DESCRIPTION:**

- This budget unit reflects the debt service requirement for payment of principal, interest, and various other costs related to the 1997 Public Facilities Project Certificates of Participation for the construction of the Coroner/Crime Lab and Data Center (the 1994 Certificates).
- On December 2, 1997, the Board of Supervisors approved the refinancing of the County of Sacramento 1997 Public Facilities Project Certificates of Participation (Coroner/Crime Lab and Data Center). The refunding (\$88,360,000) was executed and closed on January 1, 1998.
- The refunding issue was structured as a crossover refunding which reduced the annual debt service payment by \$575,000 annually. With this structure, the 1997 Refunding Certificates of Participation remained self-supporting to the call date of the 1994 Certificates (October 1, 2004). Through October 1, 2004, the County continued to pay debt service on the outstanding 1994 Certificates.
- On October 1, 2004, (the “crossover” date), the escrow supporting the refunding bonds was released and the proceeds were used to redeem the outstanding 1994 Certificates. After October 1, 2004, the 1994 Certificates were no longer outstanding, and the County began paying debt service on the Refunding Certificates.

**SUPPLEMENTAL INFORMATION:**

Total requirement for this fiscal year is \$6,705,214 consisting of \$35,000 administrative costs, \$350,000 General Fund contribution as a result of accumulated interest earnings on the debt service reserve fund, \$3,840,000 in principal payment, and \$2,480,214 in interest payments. Financing is from payments from various user departments of \$6,355,214 and available fund balance of \$350,000.

**PROGRAM DESCRIPTION:**

- This budget unit provides for the appropriations for the annual debt service and related financial services costs, including costs of issuance, for the County of Sacramento Taxable Pension Funding Bonds Series 2004 approved by the Board of Supervisors on June 15, 2004, by Resolution Number 2004-0784. The bonds were sold in June 2004 and closed in July 2004. The proceeds from the bond issue were utilized to pay a portion of the estimated Unfunded Accrued Actuarial Liability (UAAL) as of July 1, 2004, owed by the County to the Sacramento County Employees' Retirement System (SCERS) as of July 1, 2004. The UAAL was incurred as a result of labor agreements which provided for enhanced retirement benefits for County employees and negative investment returns by the system during Fiscal Year 2002-03. The bonds were issued as Convertible Auction Rate Securities (CARS), Series 2004C-1 (\$324,582,426.50), 2004C-2 (\$39,147,165.75) and 2004C-3 (\$62,401,528). CARS were a structure that combined the debt service deferral feature of Capital Appreciation Bonds (CABS) with Auction Rate Securities. The CARS paid no debt service until 2006, when they incrementally converted to conventional Auction Rate Securities. At each conversion date (July 10, 2006, 2009 and 2014) the County had the ability to call and pay down any amount of the CARS. The County also had the ability to direct the remarketing agents to sell the converted CARS in any one of several interest rate modes.
- In March 2008, the 2004 C-1 Series was refunded as Floating Rate Notes, and are no longer structured as Auction Rate Securities. The new structure brings a level of certainty to interest payments for these Bonds that are no longer available in the Auction Rate Securities market.
- In June 2009, the 2004C-2 Series was refunded as Floating Rate Notes, purchased by Bank of America as a private placement bond, and were no longer structured as Auction Rate Securities. In October 2011, these 2009 Floating Rate Notes held by Bank of America were refunded to fixed interest rate mode as the 2011B Series, and the related swap agreement was terminated.
- Due to Auction Rate Securities no longer a market product in demand, the 2004C-3 Series was refunded to fixed interest rate mode as the 2013 Series, in advance of their July 10, 2014, scheduled conversion to Auction Rate Securities. There was no swap agreement related to these bonds.

**PROGRAM DESCRIPTION:**

- This budget unit provides for the appropriations for the annual debt service and related financial services costs, including costs of issuance, for the County of Sacramento Taxable Pension Funding Bonds Series 1995. The bonds were sold in June 1995 and closed in July 1995. The proceeds from the bond issue were utilized to pay the Unfunded Accrued Actuarial Liability owed by the County to the Sacramento County Employees' Retirement System as of July 5, 1995. Most of the bonds are fixed-interest rate bonds (\$404,060,207.55). Approximately one-quarter of the bonds (\$134,000,000) were variable-interest rate bonds. The variable-rate portions of the bonds were sold with an initial marketing term of three years; therefore, the rate for those bonds was fixed until Fiscal Year 1998-99.
- Debt service on the bonds began on August 15, 1995, and the County is required to deposit the anticipated annual debt service into this fund by July 31 of each fiscal year.
- On March 18, 1997, by Resolution Number 97-0253, the Board of Supervisors approved an amendment to the original Pension Obligation Bond Resolution which provided additional flexibility for the County to execute an interest rate swap. The swap transaction fixed the interest rate on the \$134.0 million variable rate Pension Obligation Bonds for a three-year period beginning July 1, 1998, and ending July 1, 2002 at 6.169 percent, below the first three years' level of 6.195 percent. The swap counter-party opted to extend the swap through July 1, 2007. The interest swap agreement financing was executed and closed on March 18, 1997.
- On June 17, 2003, by Resolution Number 2003-0768, the Board of Supervisors approved the restructuring of the 1995 Pension Obligation Bonds, Series B and C Variable Rate Bonds (\$134,000,000) to provide significant budgetary relief over the next three to seven years during which the County was expecting to experience significant budgetary stress. The restructuring provided near-term budgetary relief in the form of a premium payment from the swap provider (\$8,072,500) but there was an overall net cost to the transaction due to the additional debt service added-on beginning in Fiscal Year 2011-12 and terminating on July 1, 2022. The restructuring swap transaction fixed interest rate was 5.935 percent.
- On October 22, 2008, by Resolution Number 2008-1025, the Board of Supervisors approved terminating the existing swap agreement with Lehman Brothers due to Lehman's bankruptcy filing and subsequent failure to perform under the terms of the agreement. The Board in the same action authorized the County to enter into a replacement swap transaction with Deutsche Bank. The replacement swap transaction fixed rate initially remained unchanged at 5.935 percent, and then changed to 6.04 percent on July 1, 2009.

**PROGRAM DESCRIPTION (CONT.):**

- In September 2011, the \$134,000,000 variable rate portion of the 1995 Bonds (the Series 1995B and 1995C Bonds) were refunded to a fixed interest rate mode as the 2011A Series, and the related swap agreement with Deutsche Bank was terminated. All of the Pension Obligation Bonds originally issued in 1995 are now in fixed interest rate mode, with no remaining swap agreements.

PROGRAM DESCRIPTION:

- This budget unit comprises the Teeter Plan Debt Service Fund. The Teeter Plan of property tax apportionment (otherwise known as the Alternative Method of Tax Apportionment) was first implemented in Fiscal Year 1993-94 following the Board of Supervisors' formal adoption on June 29, 1993. Under the Teeter Plan, secured property taxes are distributed by the County to local taxing entities on an accrual basis. In addition, when the Teeter Plan was first implemented, local taxing entities received a one-time acceleration of prior years' delinquent secured property taxes from the County. The County is thereafter entitled to retain all penalties and interest charges on the delinquent secured property taxes.
- The first financing for the distribution of the "purchase" of the delinquencies in the County's redemption file as of June 30, 1993, was provided through a borrowing arrangement through the Treasurer's Pooled Fund administered by the Treasurer-Tax Collector. The terms of the note were approved by the Board of Supervisors on August 3, 1993. Subsequently, annual purchases of secured property tax delinquencies as of June 30th of each year were financed through the Treasurer's Pooled Fund in August of the same year. Following the purchase of the redemption file, actual collections from delinquent taxpayers are transferred into the debt service fund (when apportioned by the Auditor-Controller) for eventual transfer to the Treasurer's Pooled Fund according to the payment schedule set in each borrowing.
- Interest earned on the debt service reserve will reduce the net borrowing costs owed by the County to the Treasurer's Pooled Fund.
- As actual collections are received from the delinquent taxpayers, the principal amount of the borrowing is reduced, and interest collected from delinquent taxpayers is used to pay interest on each borrowing. Also, the net penalty/interest revenue remaining after debt service interest costs is transferred to the General Fund (Budget Unit 5700000) by the close of the final accounting period each year.
- A separate "Tax Losses Reserve Fund" has been established in the General Fund pursuant to Section 4703 of the Revenue and Taxation Code. That reserve is a statutory prerequisite of the Teeter Plan and has no relationship to the borrowing through the Treasurer's Pooled Fund. In the event that a shortfall exists following the forced sale of a delinquent parcel(s), the Tax Losses Reserve Fund would be utilized to fund the shortfall and provide full apportionment of the taxes due.

**SUPPLEMENTAL INFORMATION:**

The total Fiscal Year 2017-18 requirement for the Teeter Plan debt service is \$31,260,427, consisting of \$24,305,392 for principal and interest payments, and \$6,955,035 for transfer to the General Fund. Financing is from \$27,152,211 in anticipated collections from delinquent taxpayers and \$4,108,216 from Fiscal Year 2016-17 year-end unreserved fund balance. The debt service requirement includes a quarterly and annual payment which is payable on or about August 1st after close of each fiscal year. It is anticipated that a fund balance will be rolled forward each year to finance the August 1st payments.
