The mission of the Sanitation Districts Agency (SDA) is to protect and enhance public health and the environment through safe collection, conveyance and treatment of wastewater in the Sacramento region. The Agency provides the staffing and labor to oversee and carryout the goals and missions of the Sacramento Area Sewer District (SASD) and the Sacramento Regional County Sanitation District (Regional San), including the operation of the Sacramento Regional Wastewater Treatment Plant (SRWTP).

The Agency consists of five departments whose directors are responsible for the day to day activities to operate and maintain more than 3,000 miles of mainline pipe, 1,400 miles of lower lateral pipe, 117 pump stations, 169 miles of interceptor pipelines, and the SRWTP. The Directors also oversee the master planning process and the plan, design, and construction of capital projects that are not included in the County's budget but in a separate budget document for SASD and Regional San, respectively.

The Agency utilizes Sacramento County employees, however is governed by separate boards. Therefore, only salary and benefit costs are included in the Sacramento County Budget.

The **Sacramento Regional Sanitation District** (Regional San) is governed by a 17-member Board of Directors comprised of the Sacramento County Board of Supervisors; a member from the Yolo County Board of Supervisors; and one or more members of the city councils of the cities of Sacramento, Folsom, Citrus Heights, Rancho Cordova, Elk Grove, and West Sacramento.

Goals

- To protect public health
- To protect the environment
- To convey, treat, and recover resources from wastewater responsibly and cost-effectively

Accomplishments

- Funded the FY 2021-22 district budget without increasing customer rates. Rates have not increased since 2019.
- Continued to upgrade the Sacramento Regional Water Treatment Plant (SRWTP) via the EchoWater Project. When the upgrades are completed, the SRWTP will be the largest advanced wastewater treatment facility in the Western United States.
- Continued development of the South County Agriculture and Habitat Lands Recycled, Groundwater Storage and Conjunctive Use Program (Harvest Water), one of the largest water recycling projects in California. At completion, the program will deliver an average of 50,000-acre feet of water per year of highly treated recycled water to an estimated 16,000 acres of agricultural and habitat conservation lands in southern Sacramento County.
